One unified platform — three levels of capability for growing .

How it Works

Ingest & Sync
Pull financial (ERP, CSV) + operational (IoT, telematics) data

AI Simulation & Forecasting
GenAI builds thousands of financial & ESG scenarios from unified data

Scientific Verification ← Your Moat
Proprietary verification engine → 95%+ proven forecast accuracy

Deliver Action Plans & Dashboards
Real-time dashboards + tiered plans (€99–€999/mo) with concrete recommendations

We are the only financial AI that doesn't just predict — we mathematically prove the plan will work.
(backed by PCT innovation + trade secrets).

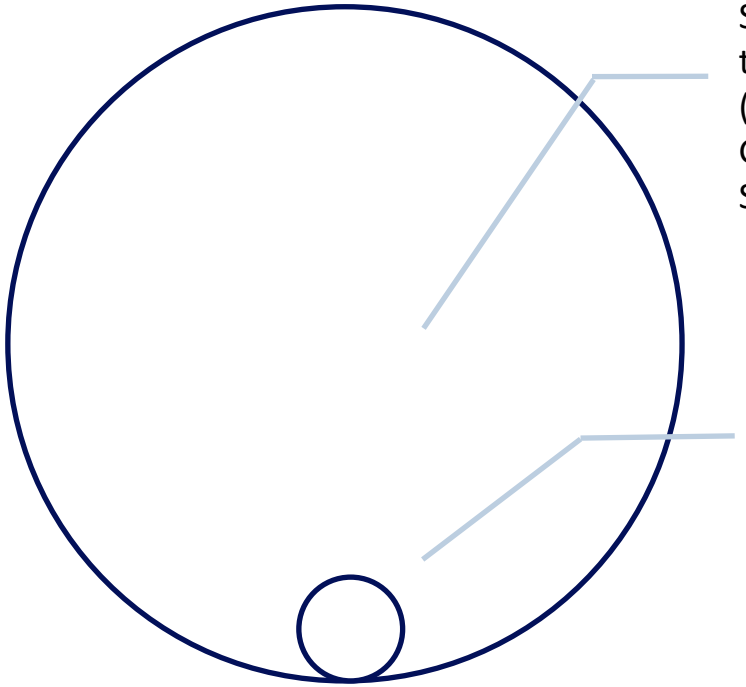

IP Status

Core IP	Status	Why It Matters
Verification engine (mathematically proves every forecast)	TRL level 6 + 100% proprietary (trade secrets + copyrights)	Only AI finance industry that *verifies* the data, achieving 95 %+ accuracy
Full stack: data ingestion → GenAI verification → dashboards	Built 100% in-house (2024–2025)	Zero reliance on third-party AI models.
PCT published (WO/2022/240365)	Published 2022 – blocks copycats + no licensing fees	Permanent defensive wall at zero cost
All code, UI, algorithms, and training data	Owned by the founder (Ivan) with entities (NDAs/IP assignments)	Clean cap table → fast exit
Electronics know-how	Co-developed with leading companies and universities	Additional new co-funded IP for new future hardware revenue (hardware upsell) + potential hardware engineer jobs (low cost)
Brand (logo and naming)	Planned global trademark filing in key markets	Provides exclusive legal rights to a brand's identity

Series A leverage · Global scalability · Acquirer-ready (Siemens/Autodesk friendly)

Market Opportunity

Top Down Validation

Global FP&A / xP&A Software Market €15B today → €45B by 2030 (CAGR 18–22 % – Gartner, McKinsey, Statista 2024–2025)

Serbia Entry Market (2026 beachhead) €150–200M total spend on FP&A / ESG reporting ~1,200 manufacturing + transport companies >€5M revenue We target first 100 → €250K ARR Year 1

Bottom-up Validation

- Average customer ACV: €12K–€50K/year
- 10 Serbian customers 2026 = €250K ARR
- 50 customers 2027 = €2M ARR
- 200 customers 2028 = €8–10M ARR → €100–200M valuation

Serbia = safest, fastest product-market fit due to founder citizenship · Canada + QC = revenue tracking · Global = scale
