The Problem: Global Financial–Operational Gap

AMBIENT SYSTEMS

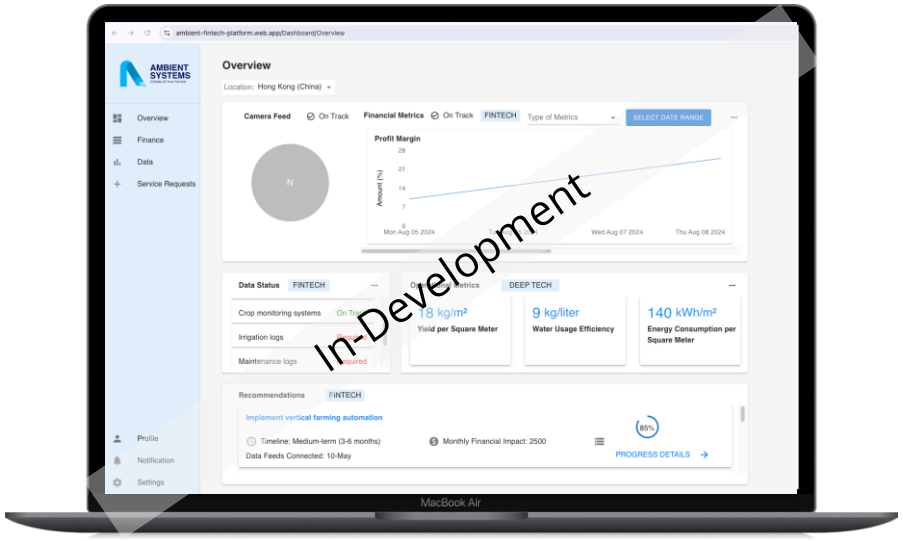

90%

of companies miss their financial targets Because financial <-> operational data never talk to each other.

- Supply-chain delays cost €1B/year in manufacturing (Statista 2025).
- ESG reporting adds 15% overhead without additional returns (Deloitte 2025).

Solution: Industrial Finance AI Platform + Advisory

- Cloud-based AI bridges FP&A with ops (IoT/supply-chain data).
- Agency entry: Fixed-price PoCs (€1.5-3.5k, 4 weeks) for models/simulators with supporting reports.
- Platform tiers: Core (€50/mo/user), Premium (€100), Elite (€200) with GenAI/ESG.

How it Works

Agency PoC: 4-week custom modeling for client data.

Real-time value attribution for commerce metrics.
