
AMBIENT
SYSTEMS
Reimagining the future of smart cities

THE PROBLEM

Hard to Find Data Scientists for Cyber Physical Systems

Edge Devices

Automation

User Behavior

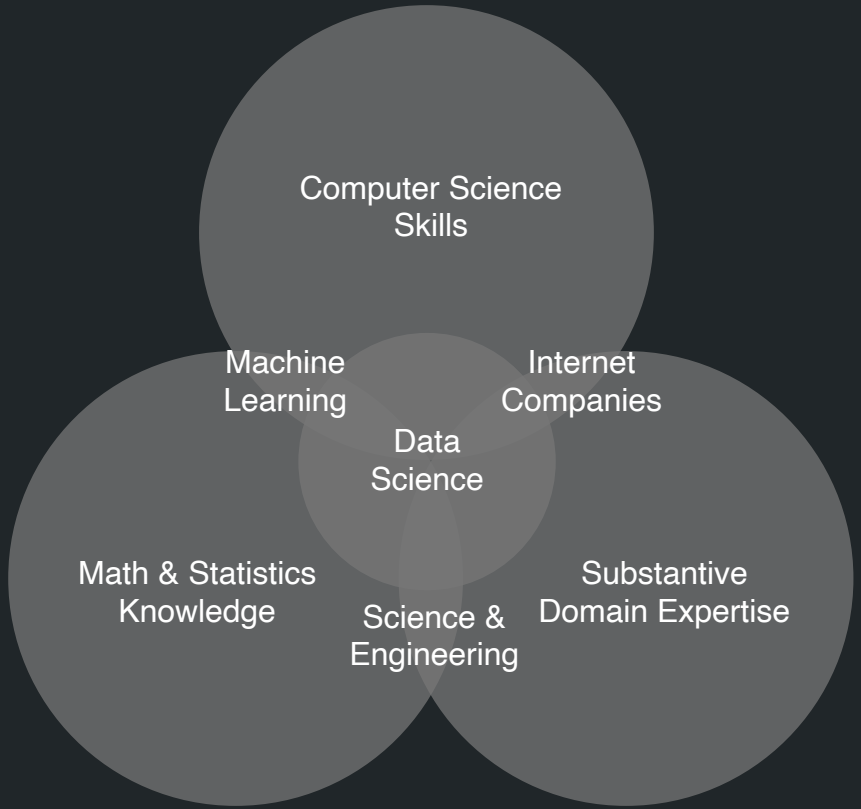

Inefficient energy consumption

Continuous operational cost

High

THE OPPORTUNITY

Bridging the Talent Gap in Data Science

Niche Requirements
Shortage of data scientists who can optimize multiple intelligent systems

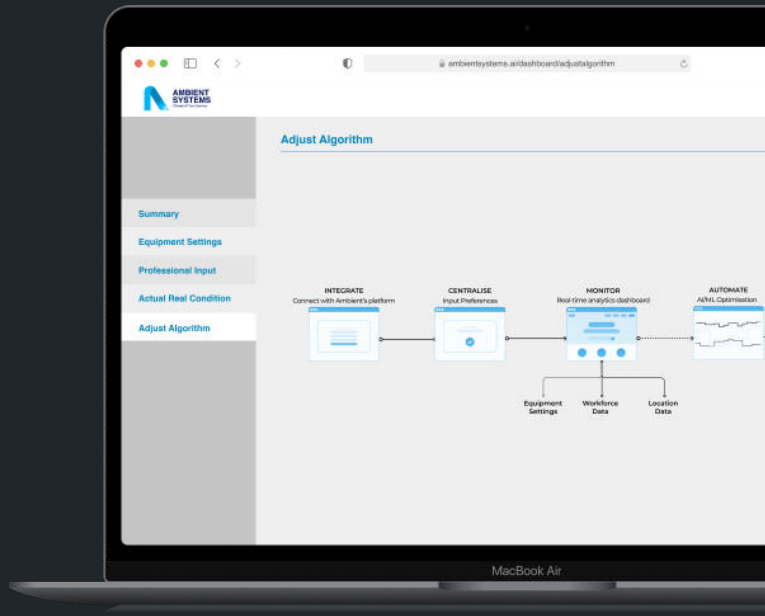

Competitive Landscape
Only around 2k data scientists in Singapore and around 50k in US, with majority working for tech giants

Data Science Teams can require over 10 roles, making them too costly for most organizations

THE SOLUTION

Applied AI for Cyber-Physical Systems

Streamlined real-time optimization of cyber physical systems with Ambient's **state of the art platform** and **proprietary data science methodology**

TRACTION

Traction with beachhead market and support from industry partners

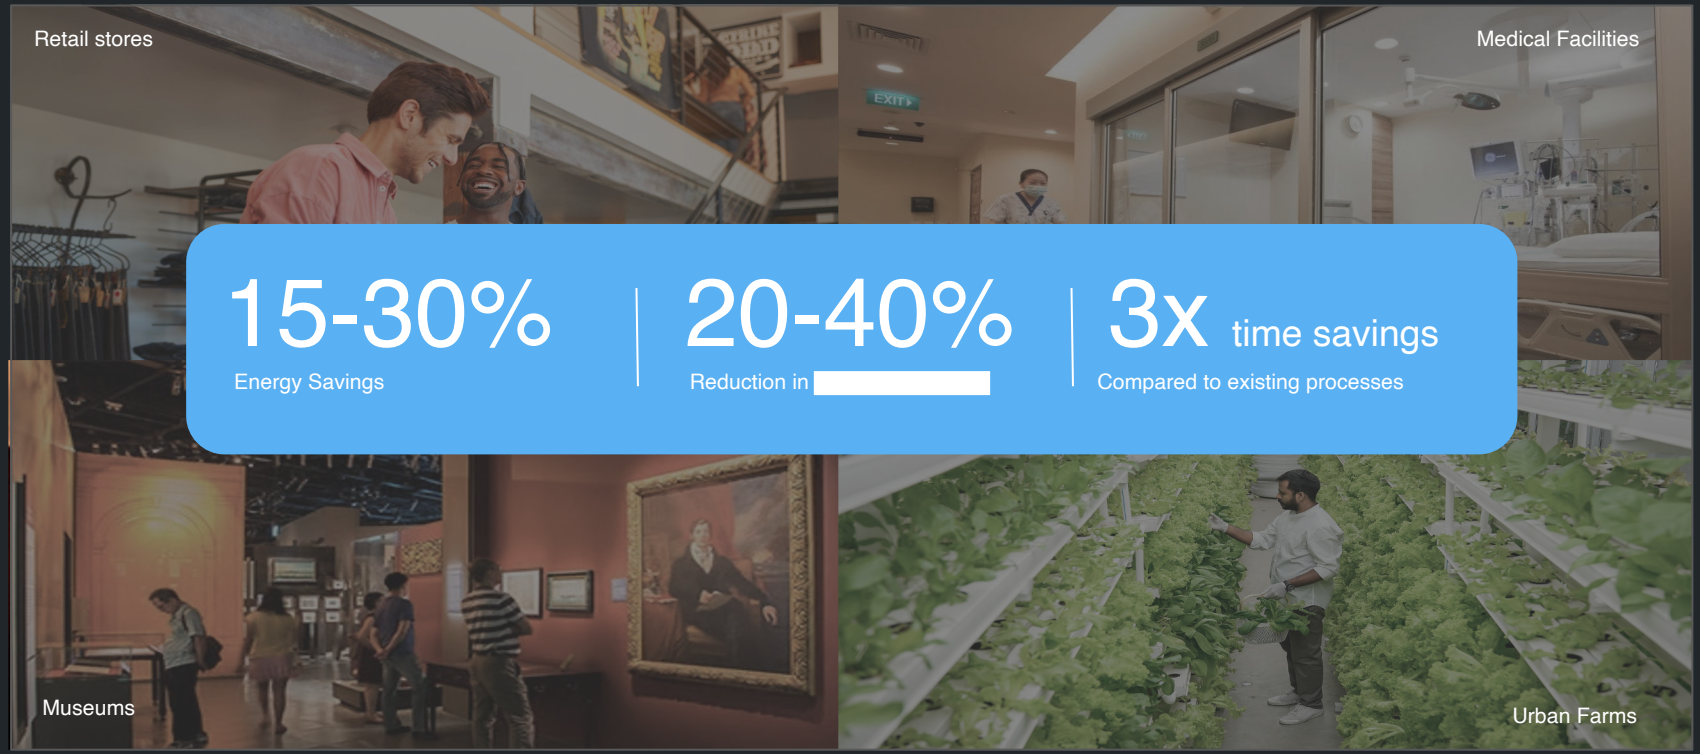

Three agreements with
AgTech companies in Singapore
valued at S$150K annually

AgTech in Singapore Presents an overall S$ 1M annual market opportunity

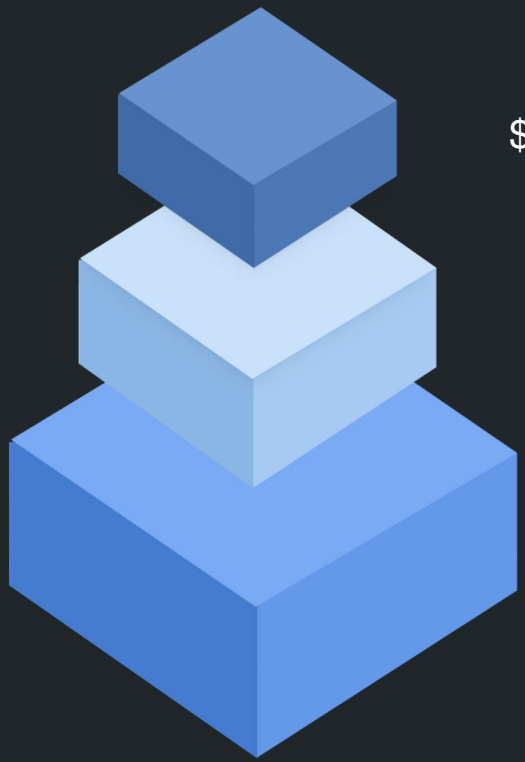

APPLICATIONS

Ambient aims to solve a ubiquitous challenge across industries

MARKET POTENTIAL

AI automation in businesses & homes is a $13B+ global market, growing at 28%

$50M

Serviceable Obtainable Market (SOM)
CPS Applications
3 of the Top 50 Global Smart Cities

$750M

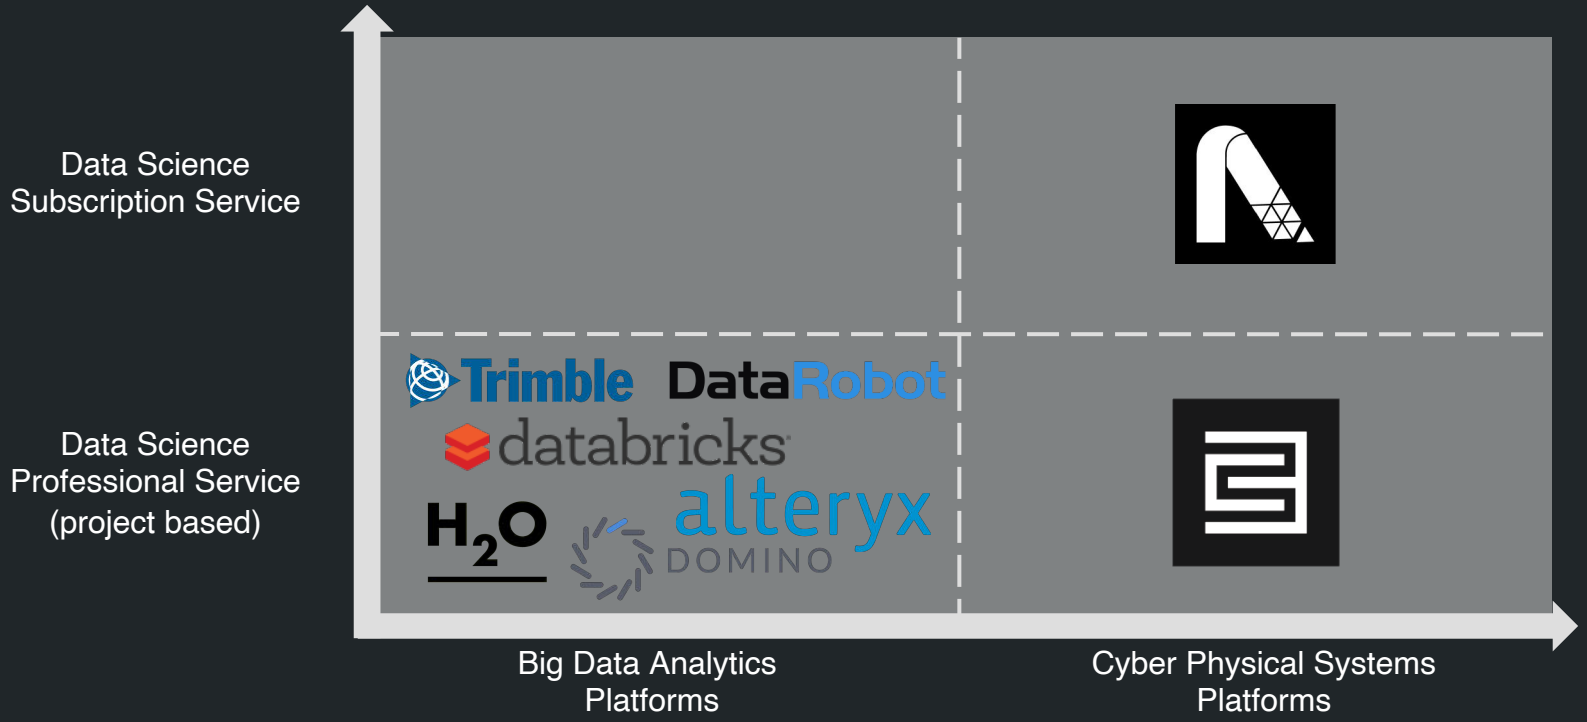

Serviceable Available Market (SAM)
CPS Applications
10 of the Top 50 Global Smart Cities

$13B

Total Addressable Market (TAM)
Global AI Platform Market

COMPETITIVE ANALYSIS

Only Ambient offers data science subscription service for cyber physical systems

PRODUCT

Ambient aims to be a leader in service, cost, and customization

Flexible On-demand Subscription

No more onboarding, training and manpower reliance. Fast up-time and results through Ambient's data science subscription service

Simple and Affordable Pricing Plans

No more reliance on expensive consultants or in-house teams. One platform powered for all your data science use cases

Specialized AI Model Customization

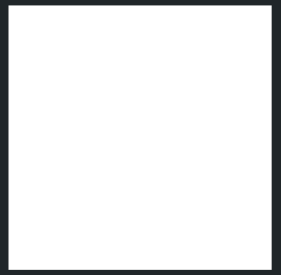

Reach your business goals across energy efficiency, environment, and compliance with Ambient's state of the art AI models

COMPANY VISION

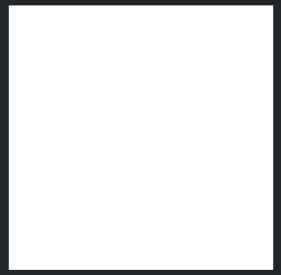

Empower businesses to achieve carbon-free economic growth through data science innovation

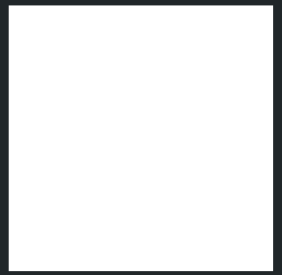

OUR TEAM

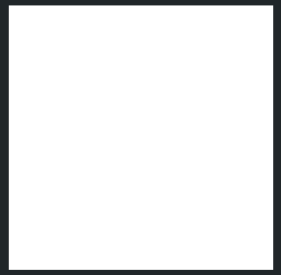

CEO
Deep tech entrepreneur with 3+ years experience in machine learning and clean tech

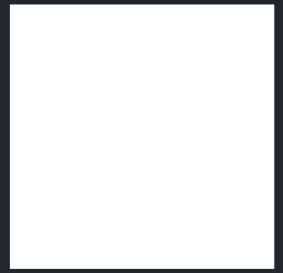

COO
Business operator and strategist with experiences in fundraising and corporate strategy for APAC startups

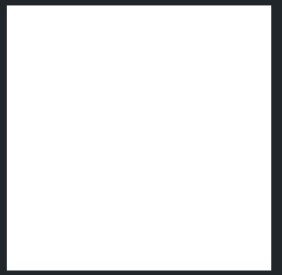

Data Scientist
Machine learning engineer with experience building cross-industry AI applications

Web Developer
Experienced developer for gaming and advanced web-based applications

Digital Designer
Service & UIUX Designer with background in VC & Industrial Design

Graphics Designer
Creative Technologist with background in visual communications

IncubateFund
