SYSTEMS
Reimagining the future of smart cities

40%

of global CO2 emissions is attributed to buildings

Climate Impact will be largely felt by real estate asset managers

Climate Risk can reduce asset value by 20% and annual returns by 40%

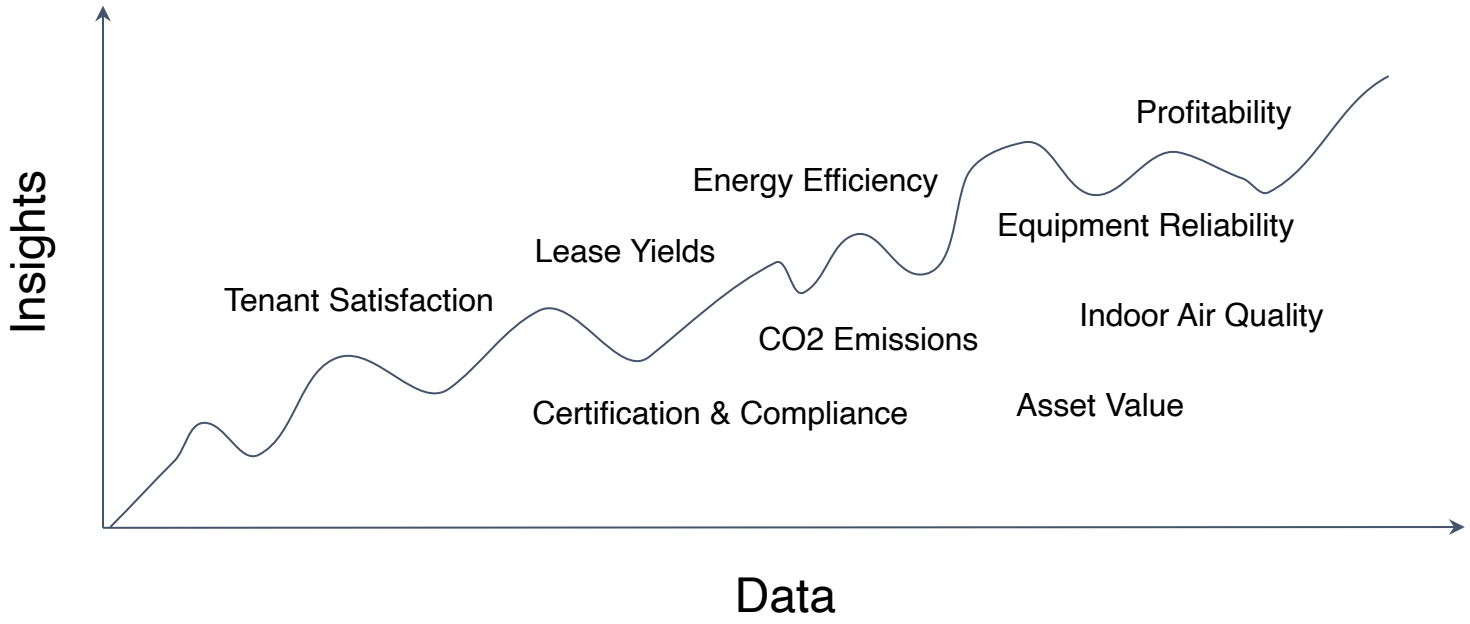

Risk to Asset Owner

- Insurance Premiums for ’Risky’ Properties
- Higher Facility Management Costs
- Risk of Default by Carbon-Intensive Occupier
- Cost of refurbishing inefficient facilities
- Repairing physical damage (e.g., floods, storms)
- Increased local taxes for community protection
- Impact on the local economy

Risk to Occupier

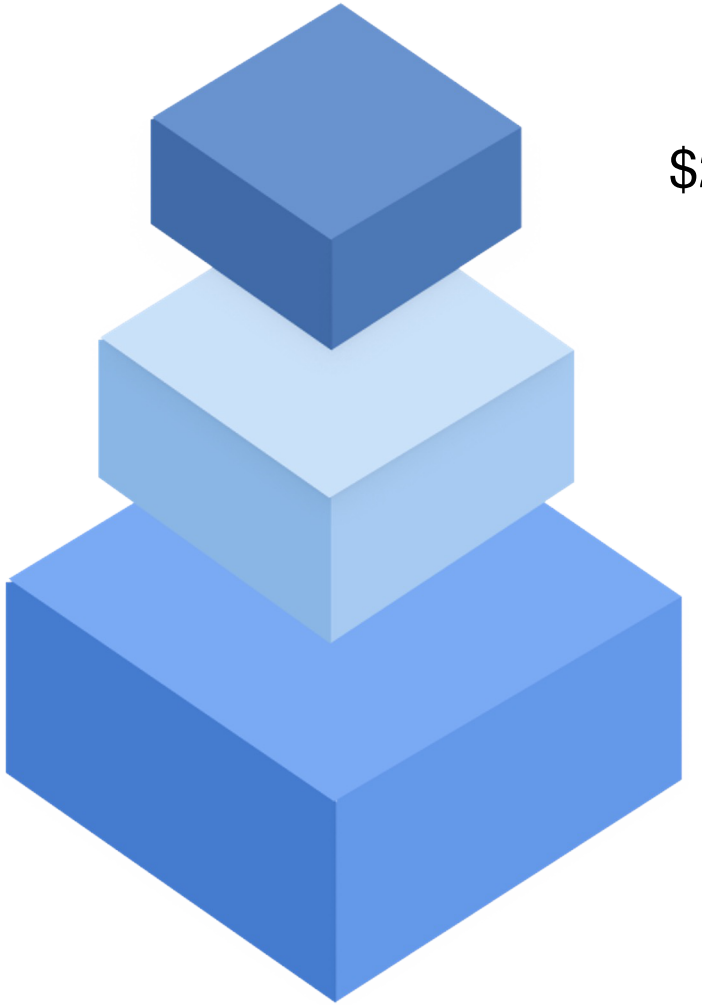

- Carbon Taxes
- Increased Utility Costs
- Risk of defaulting on lease due to increased fees

Data Science: empowering real estate asset managers to overcome climate risk

Identify Overpriced or Underpriced Assets

Operationalize Your Climate Resilience
+
Attract ‘Green’ Capital and Tenants

Minimizing Climate Risk impact on portfolio valuation and annual returns

$2.6B

Serviceable Obtainable Market (SOM)

Ambient's Potential Market Share

- Top 10 Asset Managers in Asia, Europe, and North America
- 20% Asset Price Reduction due to Climate Impact
- 40% Annual Returns Reduction due to Climate Impact
- Tech-enabled, data-driven, adoption-ready customers 10%
- Ambient's Market Share of 10%

$26B

Serviceable Available Market (SAM)

Customers ready for adoption within next 3-5 years

- Top 10 Asset Managers in Asia, Europe, and North America
- 20% Asset Price Reduction due to Climate Impact
- 40% Annual Returns Reduction due to Climate Impact
- Tech-enabled, data-driven, adoption-ready customers 10%

$260B

Total Addressable Market (TAM)

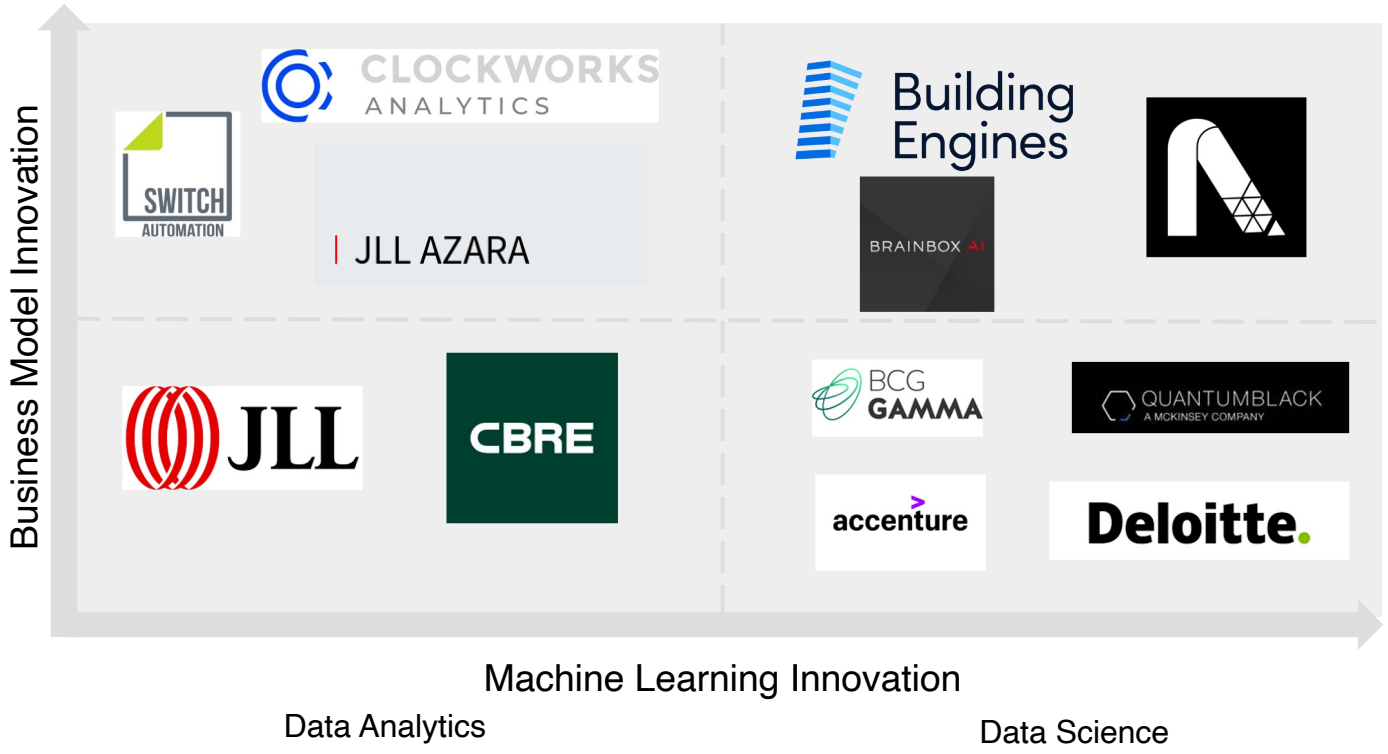

Global Portfolio Value and Return Losses

- Top 10 Asset Managers in Asia, Europe, and North America
- 20% Asset Price Reduction due to Climate Impact
- 40% Annual Returns Reduction due to Climate Impact

Ambient aims to be a leader in data science solutions for decarbonization of CRE assets

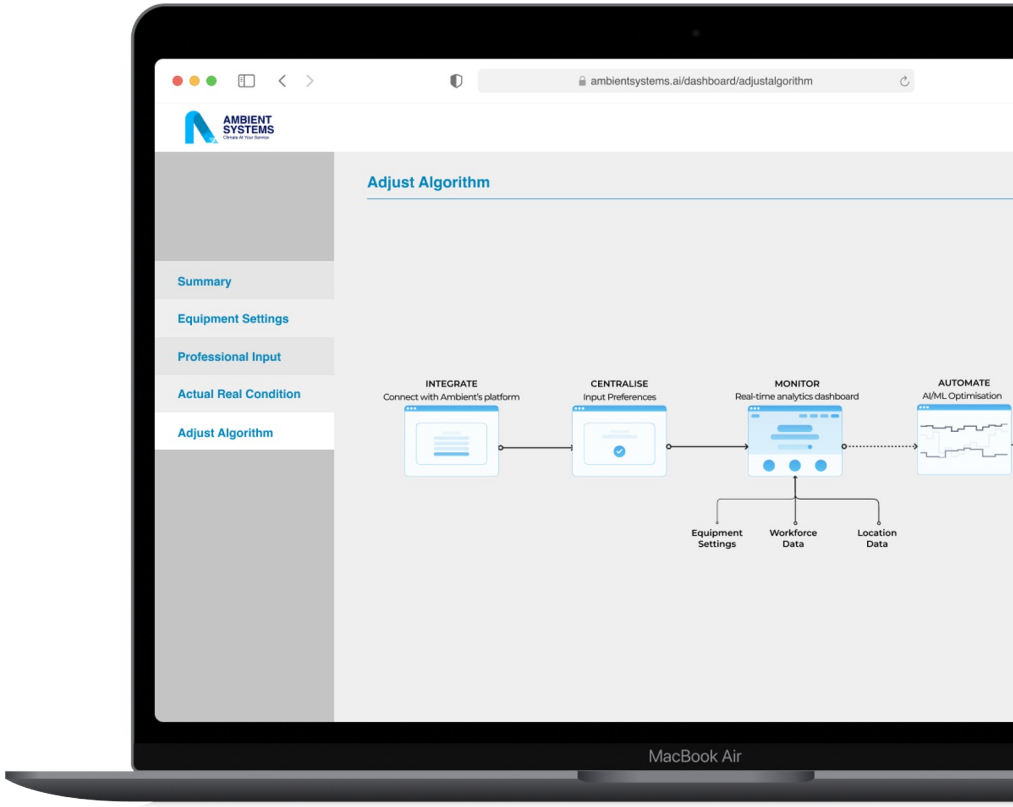

Ongoing Service
(Software Subscription)

Finite Length Service
(Professional Services Consulting)

Decarbonization Intelligence Platform for Commercial Real Estate

Intuitive and effective insights delivered by Ambient's **state of the art platform** and **proprietary data science methodology**

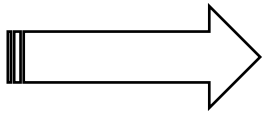

Ambient identifies the mapping between key independent and dependent variables

Independent Variables

Employment Growth in Related Sectors	Conventional
Employment Rate	Conventional
Economic GDP Growth	Conventional
New construction supply	Conventional
Inflation	Conventional
Facility Management Costs	Conventional
Building Construction Type	Conventional
Property Location	Conventional
Supporting Infrastructure	Innovative
Building Facilities Technology	Innovative
Climate Change Physical Risk	Climate
Climate Change Transition Risk	Climate

Baseline

Ambient

Dependent Variables

1. Asset Valuation & Appraisal Confidence
2. Occupancy / Vacancy
3. Operating Expense and Operating Expense Ratio

Supporting asset managers across the property lifecycle

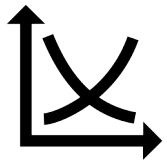

15% to 25%

Enhanced Valuation Accuracy
(to reflect climate change risk)

30%

Reduced Operating Expenses
(through operational efficiency insights)

3X

Modeling Time Savings
(compared to current process)

APPLICATIONS

Ambient supports a broad a range of CRE assets

			
Industrial	**Retail**	**Offices**	**Transportation & Logistics**
Manufacturing R&D Life Sciences and BioTech	Malls Shopping Centers Grocery Stores	High Rise Low / Mid Rise Data Centers	Public Transit Airports Warehouses and DCs

Balanced CRE optimization & decarbonization through three unique features

Flexible On-demand Subscription

No more onboarding, training and manpower reliance. Fast up-time and results through Ambient's subscription service

Simple and Affordable Pricing Plans

No more reliance on expensive consultants or in-house teams. One platform powered for all your data science use cases

Specialized AI Model Customization

Reach your business goals across energy efficiency, environment, and compliance with Ambient's state of the art AI models

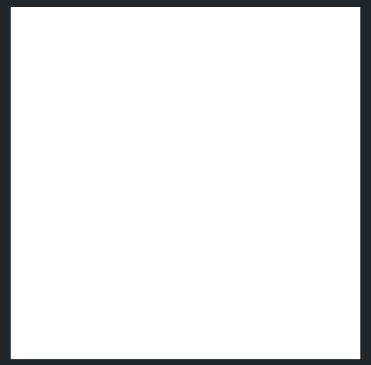

COMPANY VISION

Empower CRE leaders to achieve net zero portfolio growth through data science innovation

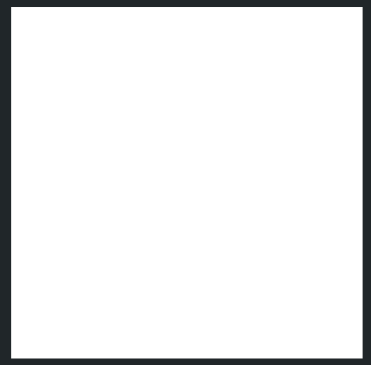

ABOUT US

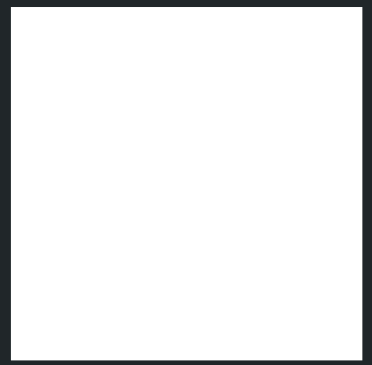

Our Team

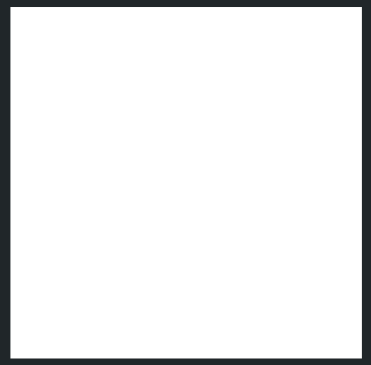

CEO
Deep tech entrepreneur with 3+ years experience in machine learning and clean tech

UX/UI Designer
Service & UIUX Designer with background in VC & Industrial Design

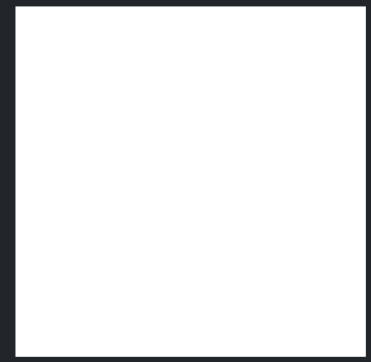

Data Scientist
Machine learning engineer with experience building cross-industry AI applications at Meta and AWS

Developer
Experienced developer of gaming and advanced web-based applications

Mentors & Advisors

Dr.
Experienced technology executive, investor, and educator with 35 years of leadership experience at Oracle and HP
