Current Challenges

Please feel free to share any current/anticipated challenges that may impede your achievement of milestones.

Support Required from BIG & Community

1. Finding lead investor to close the pre-seed round and prepare the company for the seed round within the next year or sooner
2. Mentorship on HR, sourcing / hiring staff interns, full-timers, and freelance contractors (currently received 25+ internship applications from NUS in the last month for data science, software engineering, marketing & communications, and UI/UX)

Please feel free to highlight any support/resources you may require from BIG in the coming months.

for Previous Month *

Business development and customer feedback on the new direction for the company towards real estate decarbonization (connected or planning to connect with leading real estate companies in Singapore and internationally)

Please indicate your startup for the past month. This is also an opportunity for you to review what has been done/not done.

for Coming Month *

Find lead investor(s) and close pre-seed round

Please indicate your startup for the coming month. This is also an opportunity for you to do some forward planning on your next steps.

Achievements

Finalist for CapitaLand's Sustainability Challenge 2022 - selected to be top 30 out of 300 global applicants (however all companies have been asked by Plug and Play not to mention this in the media publicly)

We would like to celebrate your wins and successes! Please share with us any noteworthy achievements that your startup has made thus far. (E.g. media mentions, funds raised, first sales/paid user, etc.)

Please upload your updated pitch deck here if any. Thank you!
