- [ ] Series A
- [ ] Other

14. Profile of your Startup or Description of your Business Idea *

In less than 100 words

Ambient Systems is Singapore-based deep tech startup, launched through NUS GRIP in June 2021 and incubated at SMU BIG in June 2022.

The company develops B2B software for the commercial real estate sector. We leverage data science and machine learning to overcome challenges faced in the built environment. Our focus is on developing proprietary machine learning models to balance different domains of priorities between desired outcomes and available solutions.
