To:

Dear Erika,

Thanks for your email.

Pleased to share a link to the presentation deck and a link to a demo, which won a top 3 in Singapore at a recent Google startup competition.

Our company's one liner is: **Ambient Systems is an enterprise SaaS startup with a mission to empower real estate leaders to achieve 'net zero' portfolio growth through data science innovation.**

In terms of the questionnaire, please find my responses as part of your email.

We're hoping to connect with the Hatchery network in order to 1) establish go-to-market partnerships in Canada and US, and 2) build on the momentum of the current pre-seed/seed fundraising round.

In the interest of full disclosure for the evaluation committee, I've been a mentor to junior teams at the Hatchery NEST programme since 2018 (4 total teams). However, the businesses are in different sectors and the company is not active in Canada yet.

Looking forward to discussing further.

Best regards,
Ivan

>
> 1. Can you pls give me an overview of the co-founding team? i.e. for each co-founder: affiliation with UofT (or not), graduated degrees, currently working on degrees, full-time or part-time in the startup, additional employment status i..e part-time researcher or postdoc or job at another company etc.

I'm the founder and inventor of the underlying technology. My LinkedIn profile here has additional information. I've been working on the start-up full time since July 5, 2021 and part-time since March 2020 as a graduate computer science student at the National University of Singapore.

> 2. Are you currently affiliated with any other incubators?

None as of July 20th, 2022 as we've successfully graduate through two university-based incubators in Singapore: NUS GRIP and SMU BIG.

> 3. Has the startup already received any funding?

Yes, we've raised USD $100k in total (SGD $100k and CAD $30k). This can be found on our company's profile on Crunchbase.

> 4. Do you have a pitch deck to share?

Yes, I've shared a link above.

> 5. Do you have a business plan?

Yes, but we would prefer to sign an NDA first.

> 6. Do you have cashflow/burnrate/cash required projections?

Yes, but we would prefer not to disclose at this time.

> 7. What is the status of IP with UofT?

There is no link with UofT in terms of IP.

> 8. Do you have any customers?

I can't disclosure more at this stage except to share that we're negotiating with several major players in the industry.

Hi Erika,

Good to hear from you. We have 5 other team members and are in the POC stage.

I can share more about the company via a call if it's easier.

Thanks,
Ivan
