Unleash the power of data science for real estate

VISION

Leverage data science
to raise green capital
for the commercial property market

It’s hard to balance risk and profitability

01 Mitigate Climate Transition Risk

02 Maximize Revenue & Profitability

Furthermore!

Lack of data and skillset is a barrier to confidently raising Green Capital.

Property industry confirmed this problem

"We spoke with suppliers offering carbon reporting services and tools, but they do not see the property development industry from our perspective."

- Top 5 Developer in Singapore

We make it easy for REITs to raise green capital
