The Problem

Fragmented Data

Finance and operations teams lack a unified view — data is siloed across disconnected systems.

No Real-Time Visibility

No live insight into financial health, operational performance, or compliance status.

Regulatory Pressure

Mounting decarbonization and compliance demands in asset-heavy, regulated sectors.

Made with GAMMA

Key Features

Unified Dashboard

Live metrics, AI recommendations (confidence-scored), real-time alerts, camera/data-status feeds

Financial Planning Suite

Goal-metric selection, planning workspace, data selection, action-plan workflows

Data Library

Centralized repository auto-linked to industry metrics with live On Track / At Risk indicators

Compliance Hub

Accounting management, regulatory reporting, one-click service request workflows

Intelligent Alerts

Date-filtered, in-app history with badge counts

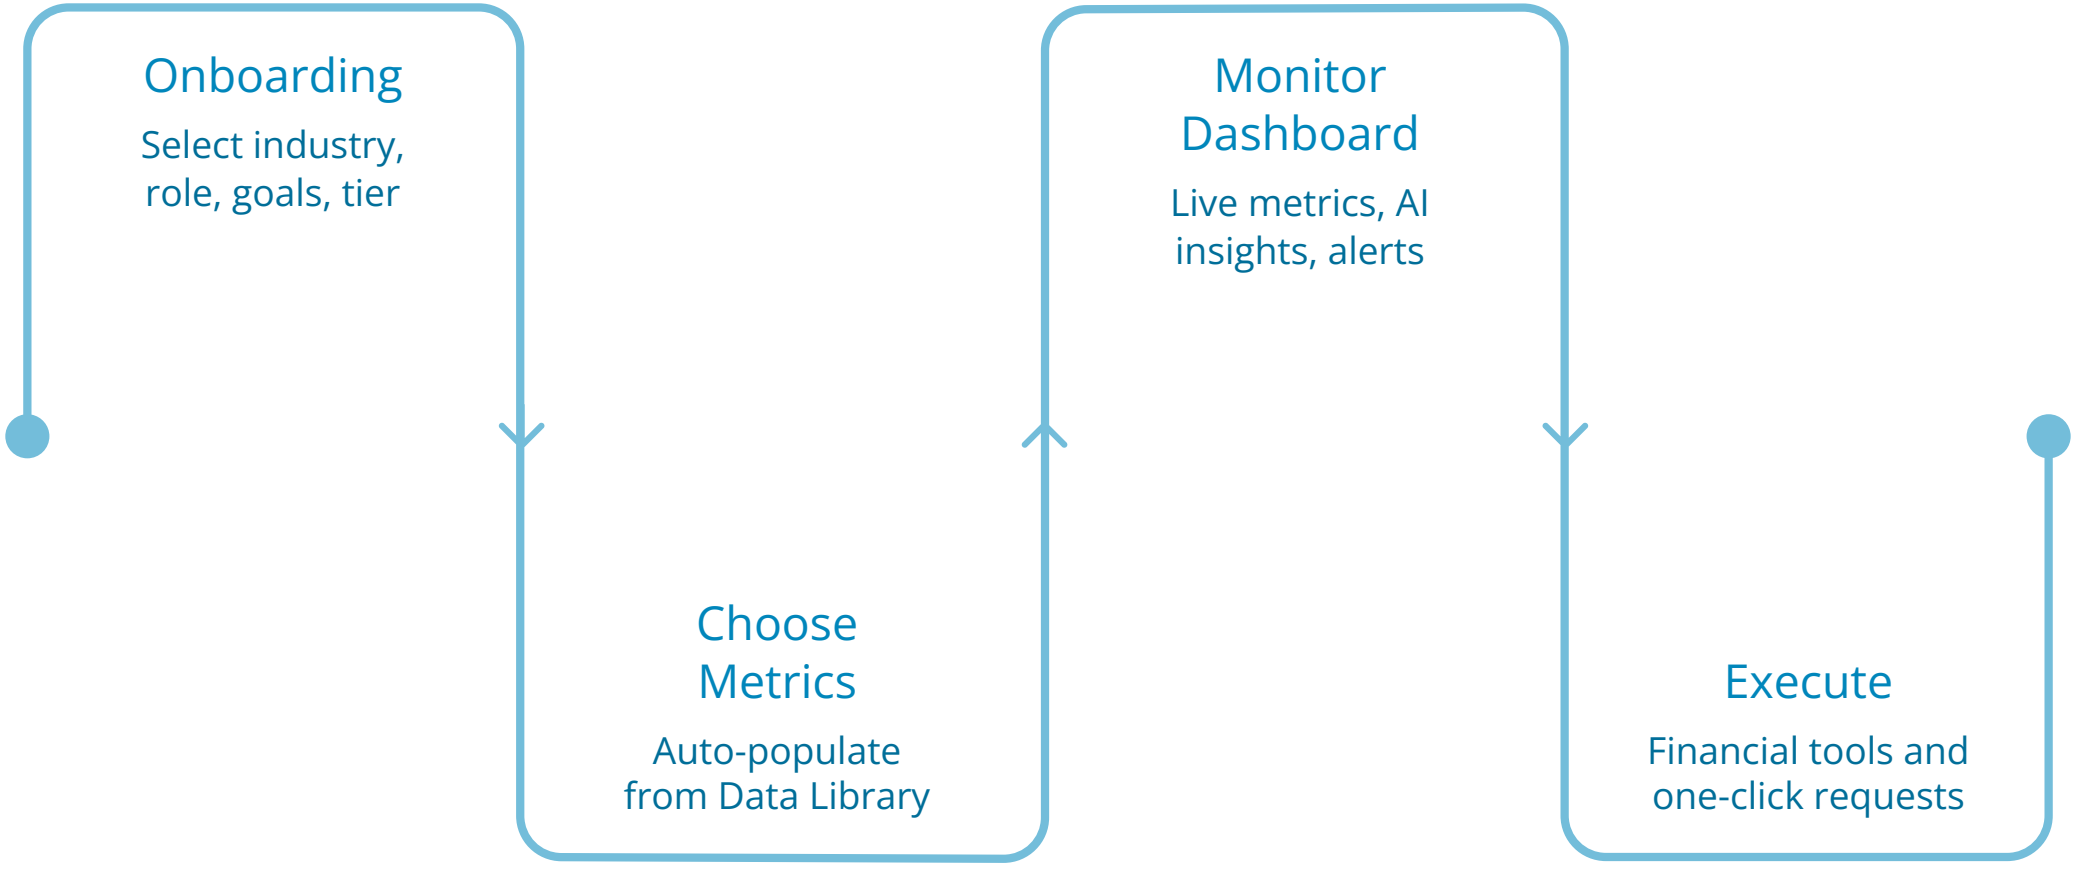

Onboarding & Profile
