"For some words of encouragement, although we lost the election, we also saw some bright spots. We hope that they will continue to work hard and apply again if they have the opportunity."

advantage:

shortcoming:

Agriculture	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
Artificial Intelligence	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
B2B	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
能源	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
Hardware	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
Healthcare	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
Robotics	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
Sensors	No data (the number of applications accepted/total number of applications, when the numerator or denominator is 0, it will display'no data')
