NG

UTEC (The University of Tokyo Edge Capital) recently launched **UFP (UTEC Founders Program)** to support technology commercialization of seed-stage deep-tech startups. UFP consists of two tracks:

- the Equity Track, which is an equity investment program of up to $1 million with flexible investment terms, and
- the Grant Track, which is a non-dilutive donation of around $50K (up to $100K on rare occasions), selected every six (6) months.

UTEC (The University of Tokyo Edge Capital) is a $850 million VC fund investing in global science and deep-tech startups with over >100 investments, 13 IPOs & 12 M&As.

The Applications are open.
