SW

Hi Ivan,

Thank you for applying to the DMZ. I regret to inform you that your application was not accepted into our Incubator program.

As feedback on your application, the DMZ determined that Ambient Systems is too early and lacked sufficient validation to be considered for our program. We encourage you to onboard more users onto your platform, and refine your unique value proposition through customer feedback. Although this decision may be disheartening, we want to emphasize that it does not diminish the merit or potential of your startup.

We wish you all the best as you continue to grow your startup.

Best Regards,

Stephen
