AMBIENT SYSTEMS

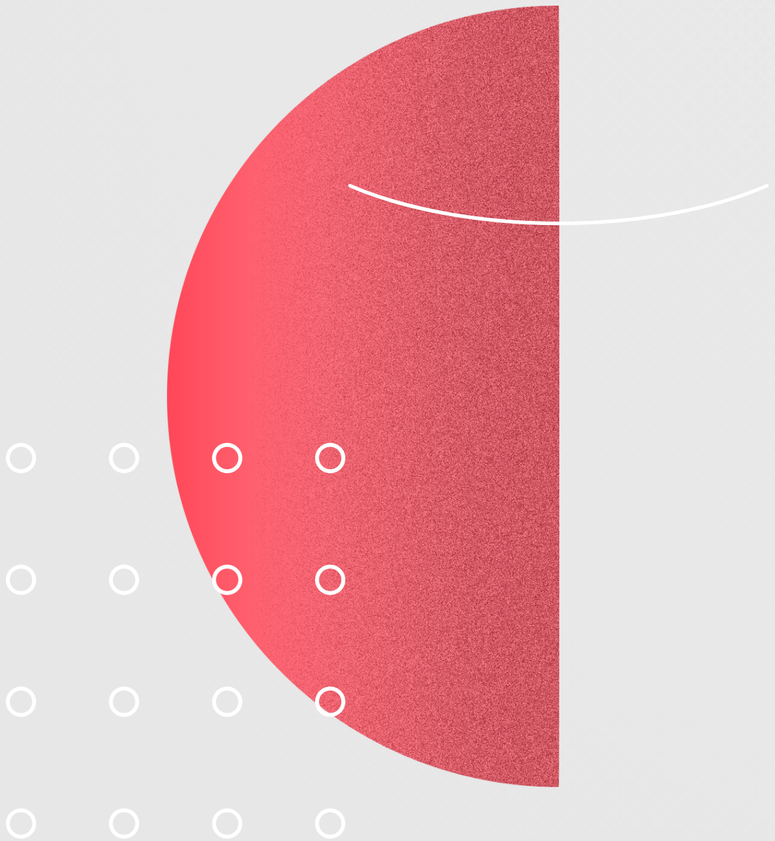

Enhancing financial analytics through data science.

January 19, 2023

Prepared Exclusively for: Panasonic

Finance
is central to
managing
smart cities.

Yet CFOs are left with mainly accounting data to make financial plans.

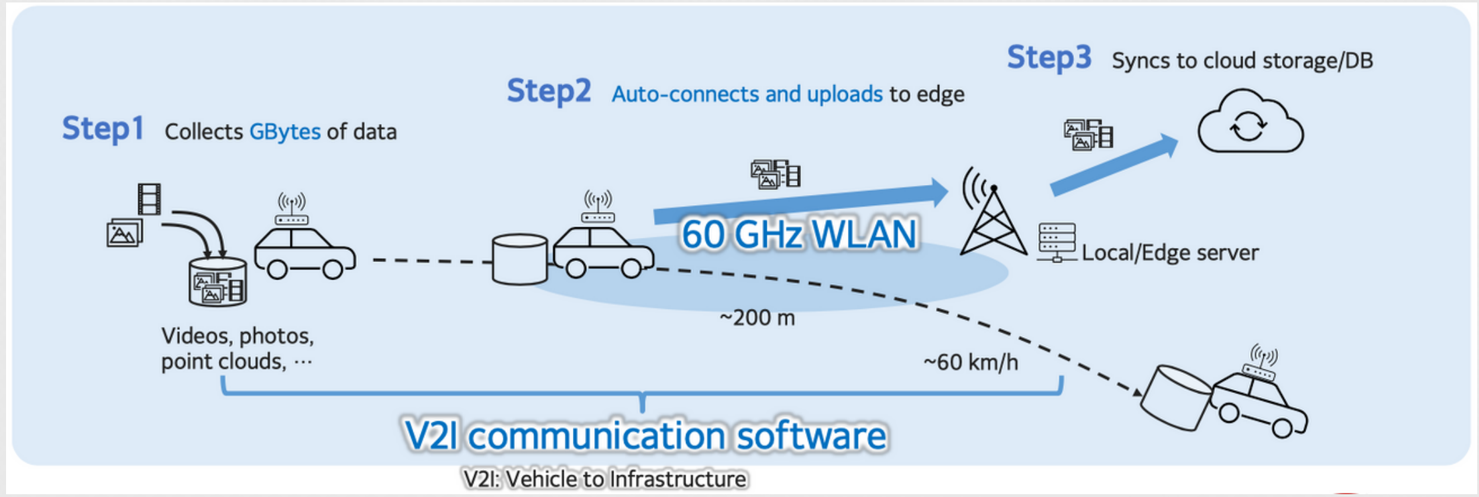

At Ambient, we see a future where financial planning & analysis is enabled by multi-dimensional data.

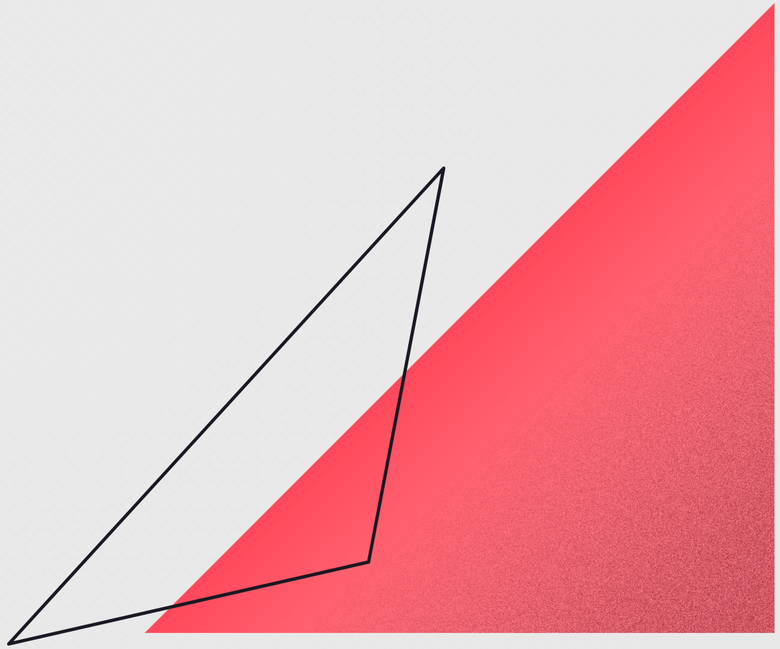

Panasonic's technology can enhance data utilization for smart cities.

Panasonic

- Create dynamic maps
- Train autonomous vehicles
- Maintain utility vehicles through the cloud and analytics
- Inspect, monitor, and analyze vehicles on the road, construction, and mining
- Provide passenger and public safety

But good data has to be connected to business outcomes.

Globally We're Wasting $242B/YR

1

Forecasting errors

From lack of insights due to inefficiencies.

2

Resource intensive

People/talent
Time (6-12mo)
Cost ($100k+)

3

Tech mismatch

Not tailored, despite $500B investments

Solution

1) Smart Vehicles

2) Sync with FP&A

3) Apply data science

Client Outcomes

Customer benefits from better financial planning & analysis.

This often results in:

- Fewer data preparation errors or re-work
- More confidence
- Faster analysis
- Easier to secure funding or insurance
- Higher margins, higher profitability
- Less stress

We don't own the client's financial outcomes, but we empower them to make their own, informed decisions.

Commercialization Model

SME

$99/mo

- Standardized APIs
- Data Catalogue
- Data Visualization
- Key Metrics

Enterprise

$999/mo

- Standardized/Customized APIs
- Data Catalogue
- Data Visualization
- Enhanced security
- Key Metrics (unlimited)

AMBIENT SYSTEMS

Competitive Pricing
with volume discounts

-
-
-
-
- Passenger Counting and Prediction
- Route Design

Tentative Pricing:
SME: $2k/template/month
Enterprise: $20k/template/month

Panasonic

By Project Basis
(1 vehicle or whole fleet)

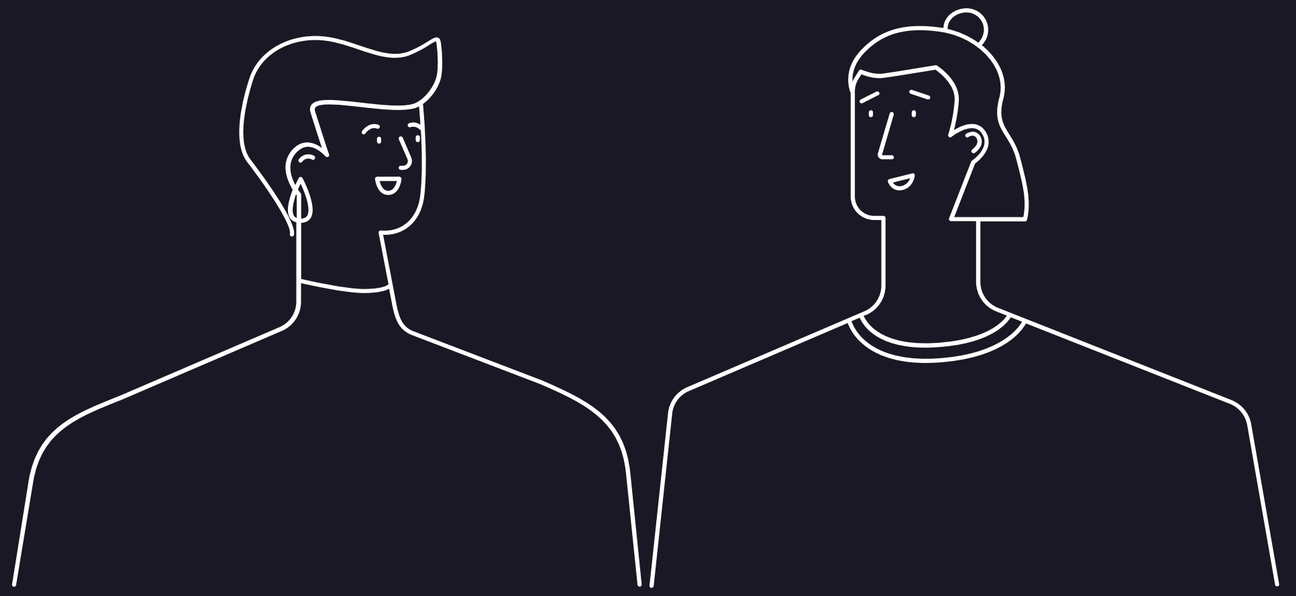

- Casing & Attachments
- Sensors & Connectors
- **V2I Gateway (Panasonic)**
- **V2V Gateway (Panasonic)**
- Implementation
- Servicing Contract

Tentative Pricing:
Bus: $300/bus/month
Truck: $250/truck/month

Benefits of Partnering with Panasonic

1. Co-developing product offerings for smart cities applications that collect data and prepare it for analysis
2. Leveraging Panasonic's Fast Data Transfer Technology (Re: Challenge #2) for transportation industry
3. Opportunity for expansion in Japan

Closing the feedback loop in data science applications with multi-dimensional data and finance-first modelling.

Collaboration Model

	OPTION 1	OPTION 2	OPTION 3
PLATFORM	AMBIENT SYSTEMS	AMBIENT SYSTEMS	AMBIENT SYSTEMS
TECHNOLOGY	Panasonic	AMBIENT SYSTEMS + Panasonic	Panasonic
HARDWARE	Business Partner	Panasonic	Panasonic
SERVICING	Business Partner	Business Partner	Business Partner

Investment: Corporate VC, Traditional VC, Government R&D

Financials

Investment

Equity Investments:

- Seed: $1m equity investment into the company
- 1st Round: $10m
- 2nd Round: $50m
- 3rd Round + onwards: TBD

Project Investments:

- **$300k R&D agreement per use case:**
  - 2 year (24 month) contract
  - IP co-development: patent and/or trade-secret
  - Market discovery and analysis
  - Pricing
  - Partner demonstration LOI/MOU Pilot Agreement
  - Prospect Pipeline

Product Economics

Sample finished product pricing:
Bus: $300/bus/month
Truck: $250/truck/month

Covers the cost of:

- Parts & Assembly
- Implementation
- Servicing
- Margins: 5-10%
- IP Royalties: 1-2%
- Revenue Example:
  - $3,600,000 per year for 1,000 fleet contract
  - Margin: $180,000-$360,000 per year
  - IP Royalties: $36,000-$72,000 per year

Example Scenario: SMRT Bus Operations

SMRT MERCEDES-BENZ CITARO
1,000-1,200 ACTIVE UNITS
AVERAGE COST: $430K PER UNIT
ESTIMATED DAILY DISTANCE: 150-300KM
ESTIMATED FUEL COST: $100/DAY

Smart Bus Upgrade (annual)
- Annual Price for the fleet: **$3,600,000 per year**
  - Unit Price: $300/bus/month * 1000 buses * 12 months
- Covers: all sensors, upgrades, and maintenance

Software Costs (annual)
- Enterprise Subscription: **$12,000 per year**
  - $999 * 12
- Cloud Costs: **$10,000 per year**
  - $10/bus/year * 1000 buses
- Machine Learning Template: **$240,000 per year**
  - $20,000/template month * 12 months

$1,000,000 value!

Benefits of Machine Learning (annual)
- Improvement in Fuel Economy: 12%
  - **$3,600,000 increase in annual savings** for the SMRT fleet
- Pricing Strategy Improvements: 9%
  - **$22,500,000 increase in annual revenues** (based on 2016 SMRT financial statements)

Roadmap: R&D Agreement

6 months

June 2023

Secure Demonstration Partner

Reach out to existing network to secure a pilot partnership agreement

12 months

Jan 2024

Develop Solution

Prepare detailed proposal for the partner demonstration and pricing for the commercial offering

18 months

June 2024

Implementation

Roll out project with partner user (e.g., bus or truck fleet operator, OEM, or another heavy vehicle industry such as mining or construction)

24 months

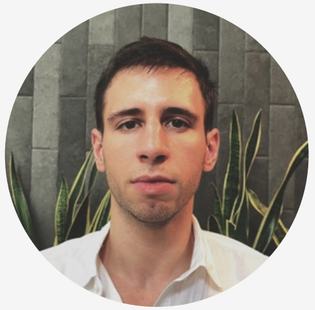

Jan 2025

Scale & Commercialization

Co-market product through existing channels, industry associations, or bus/trucking OEM

Private and Confidential. Copyright Ambient Systems Pte. Ltd.
