

Business Finance Planning Platform for Smart Cities

ivan@ambientsystems.ai

Problem & Pain Points

Smart Cities are lacking prepared data for effective financial planning

- Transportation & Logistics
- Construction & Real Estate
- Facilities Management
- Urban Agriculture
- Power Generation & Transmission

1. Data quality and availability
2. Technical expertise
3. Resistance to change
4. Integration with existing systems
5. Data privacy and security

Solution

1 Convenient

Single source of internal information
Proprietary data sets

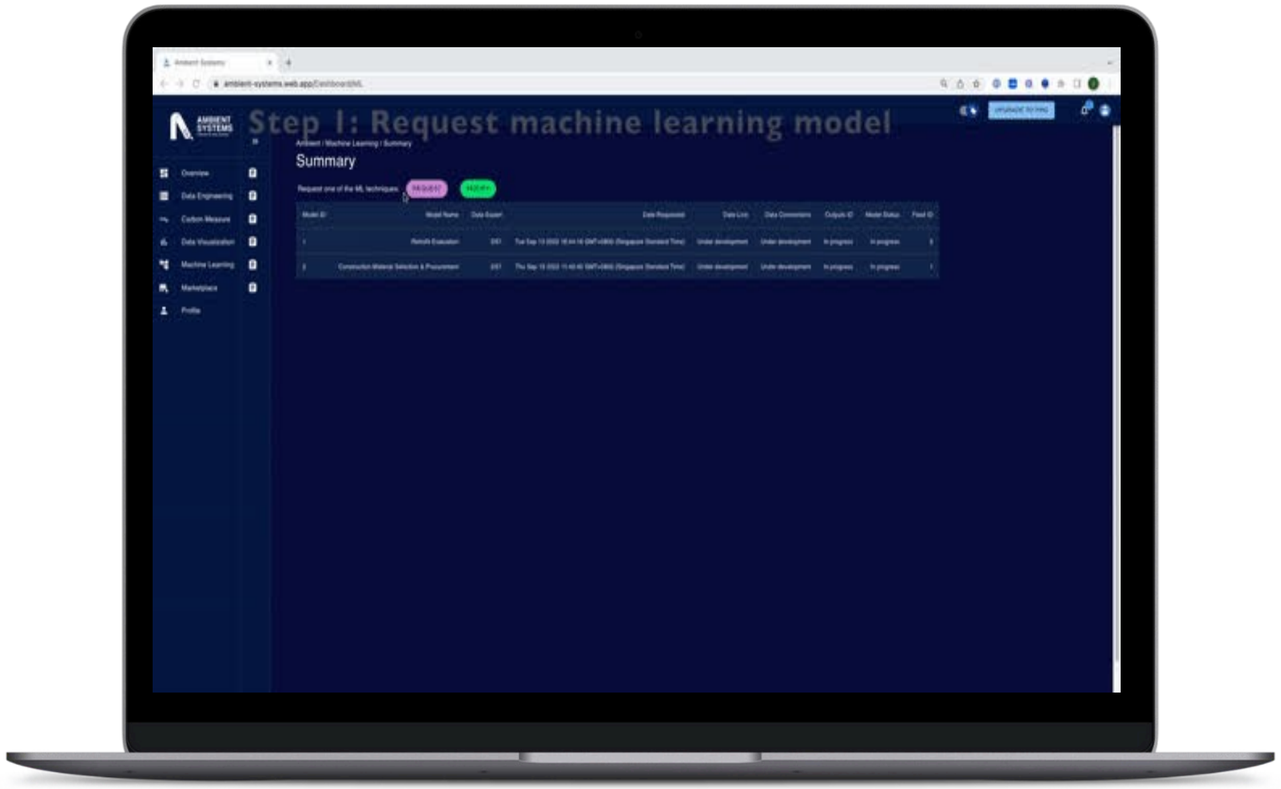

2 Efficient

Streamlined UX
Instant results

3 Versatile

Industry-specific ML
Reporting tools

'No Code' Data Science Platform for Business Finance Planning

Watch a full here.

Scalable B2B SaaS Model

SME

$99/mo

- Self-serve
- Connect ERP, CRM, HR, and more
- Export formatted data
- Access specialized data sources

Enterprise

$1,999/mo

- Account manager
- Connect ERP, CRM, HR, and more
- Export via API
- Access specialized data sources
- Enhance data governance

$0 Implementation fee for first 50 customers

Competitive Pricing
with volume discounts

Pricing Model

- Prescriptive Maintenance
- Predictive Safety
- Revenue Forecasts
- Market Segmentation

Financial Reporting

Competitive Pricing
with volume discounts

- Financial statements
- Project analytics
- Decarbonization reports
- Budget vs Actual
- Financing updates

Subscription paid quarterly

Singapore Market Opportunity

Method of calculation:

Total Addressable Market (TAM)

- Launching in Singapore
- Bottoms-up approach
- Calculation: number of potential SME (921) and Enterprise (127) customers multiplied by the cost for that particular business size; $2k/mo and $20k/mo respectively

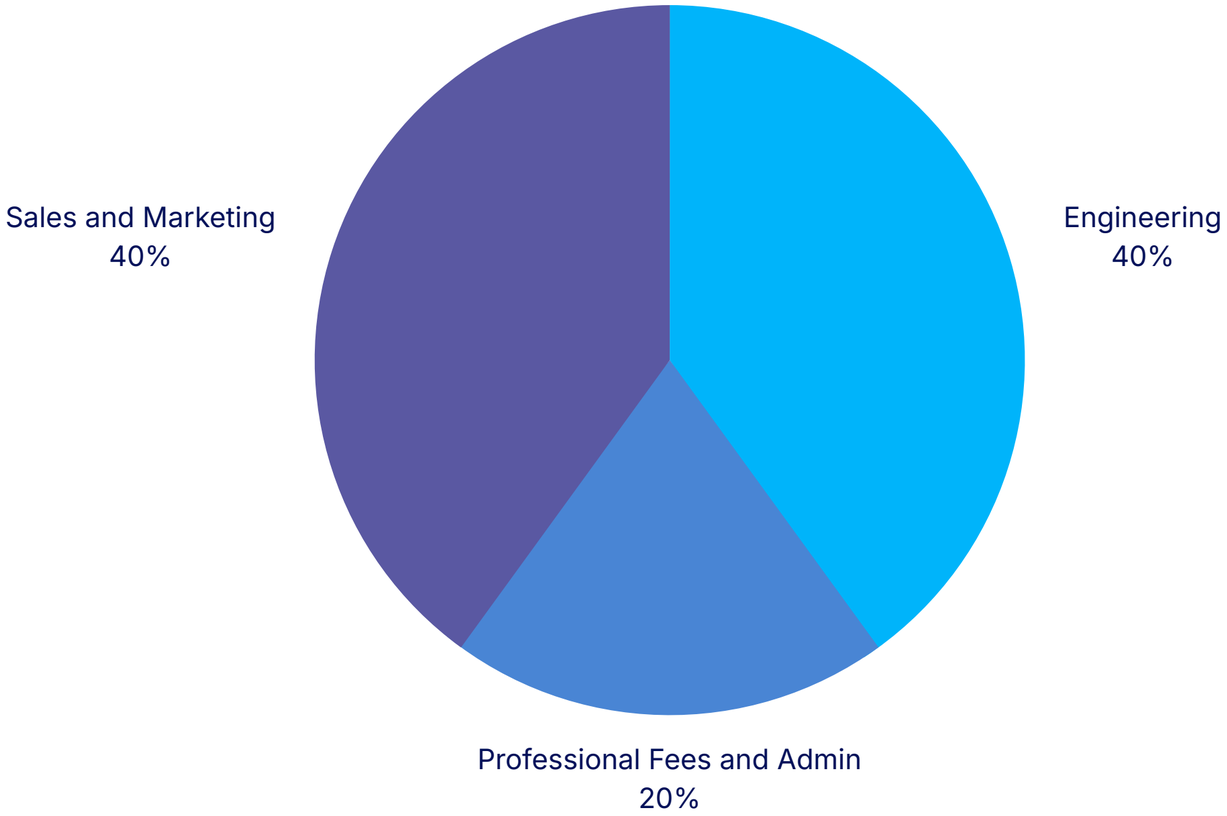

Serviceable Available Market (SAM)

- 76% of enterprises ready for adoption based on survey: 76% of CFOs currently retooling their financial tech stack

Serviceable Obtainable Market (SOM)

- 20% of SAM enterprises and 1/3 of SAM SMEs

We are looking for an investment of US$1M for next 18-24 months
