AMBIENT SYSTEMS

Data science platform for financial transformation.

March 9, 2023

Prepared Exclusively for:

ANTLER

Problem & Pain Points

Smart Cities are lacking prepared data for effective financial planning

- Transportation & Logistics
- Construction & Real Estate
- Facilities Management
- Urban Agriculture
- Power Generation & Transmission

1. Data quality and availability
2. Technical expertise
3. Resistance to change
4. Integration with existing systems
5. Data privacy and security

Private and Confidential. Copyright Ambient Systems Pte. Ltd.

Validation / Traction / Distribution

To be completed for the IC

Timeline:

March 21 – Pre-IC:
- Validated problem
- Metrics?

April 18 – IC:
- Signed LOI for a Pilot?
- Other metrics?

Date TBD:
- Subscribed customers

Scalable B2B SaaS Model

SME

$99/mo

- Self-serve
- Connect ERP, CRM, HR, and more
- Export formatted data
- Access specialized data sources

Enterprise

$1,999/mo

- Account manager
- Connect ERP, CRM, HR, and more
- Export via API
- Access specialized data sources
- Enhance data governance

Competitive Pricing
with volume discounts

Pricing Model

- Prescriptive Maintenance
- Predictive Safety
- Revenue Forecasts
- Market Segmentation

Financial Reporting

Competitive Pricing
with volume discounts

- Financial statements
- Project analytics
- Decarbonization reports
- Budget vs Actual
- Financing updates

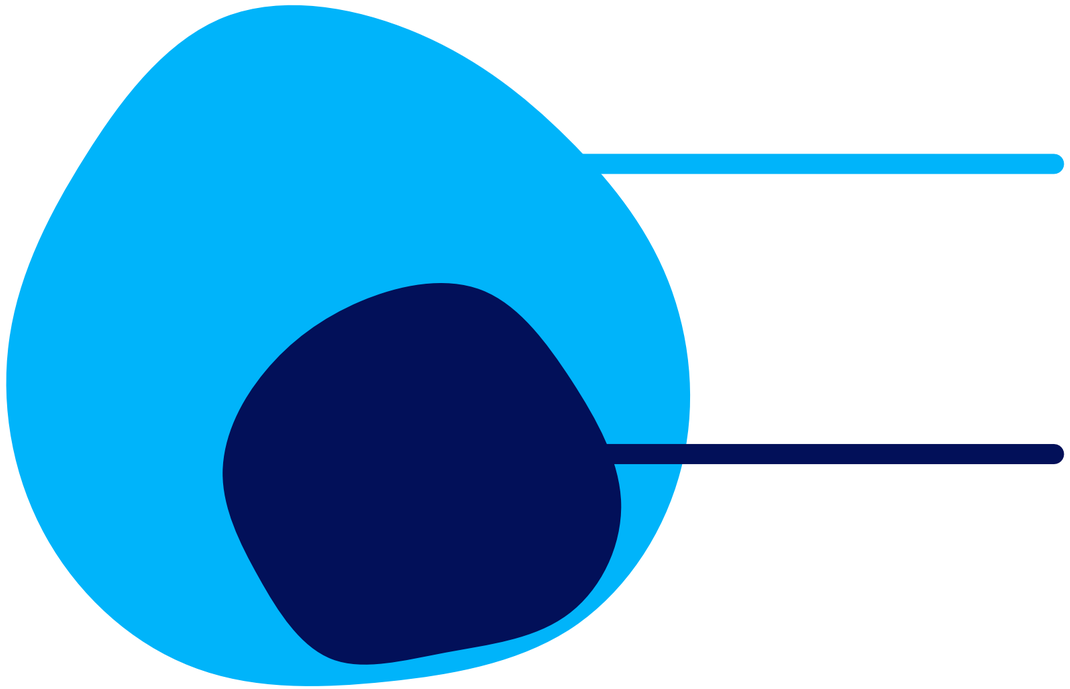

$0 Implementation fee for first 50 customers

Subscription paid quarterly

Singapore Market Opportunity

Market/industry to be updated based OH discussion

TAM
$63.8M

SAM
$46.6M

SOM
$11.5M

Method of calculation

Total Addressable Market (TAM)

- Launching in Singapore
- Bottoms-up approach
- Calculation: number of potential SME (921) and Enterprise (127) customers multiplied by the cost for that particular business size; $2k/mo and $20k/mo respectively

Serviceable Available Market (SAM)

- 76% of enterprises ready for adoption based on survey: 76% of CFOs currently retooling their financial tech stack

Serviceable Obtainable Market (SOM)

- 20% of SAM enterprises and 1/3 of SAM SMEs

March 9 Antler Office Hours Questions

1. **What are some good traction metrics to show to the investment panel?**
   - March 23 (Pre-IC): we can validate the problem
   - April 18 (IC): we can sign an LOI for a pilot
2. **What type of co-founder would compliment this business?**
   - One option is another technical founder as CTO/CPO to further develop the platform and technical onboarding for enterprise customers
   - Second option is another business founder as COO to support the sales process from the technical perspective and cover the day-to-day of running the business
3. **Are we looking at the right market? Right industry?**
   - Is Singapore a right place to launch a technology company?
   - Do we need to focus more on one segment of smart cities (e.g., transport)? Or do we need to capture a more functional problem (e.g., lack of non-financial data for financial planning)?
   - If not Singapore, then what's a better launch market?
   - If not smart cities, then what's a bigger / faster growing market?
