Section 1. Company Information

Company Information

Tell us about your company.

Company Name

NOTE: Do not include Inc., LLC, GmbH, etc. This is how your company will be registered in our records.

Ambient Systems

Describe what your company does in 100 words or less:

Be concise, and consider the following template: "(Company) looks to (the value you deliver) by (what you do) using (your product or technology)".

Example: "TestCo improves family health by removing airborne viruses and bacteria in the household using a patented UV light device."

Ambient Systems improves financial management.

What is your company's long-term vision and why is it important to you as a founder?

Our vision is to revolutionize financial management using technology. This is important to me as a founder because I grew up in a country where technical expertise and capabilities were not sufficient to create positive economic outcomes for society and businesses.

What track best fits your company?

Endless Frontier Labs operates three tracks:

- - for startups developing cutting edge solutions with applications such as robotics, hardware, new materials, quantum computing, advanced manufacturing, renewable energy, Internet of Things, sensors, and more.
- **Digital Tech** - for startups with novel software, AI/ML, or digital services with applications in finance, health, security, supply chains, Enterprise SaaS, education, retail, media, e-commerce, and related verticals.
- **Life Sciences** - for startups tackling complex problems in biology, chemistry or related fields with applications in therapeutics, drug discovery, drug design, delivery, diagnostics, and other human or animal health-focused verticals.

If you are unsure, please pick the best fit, and EFL will make final assignments if admitted.
