In one sentence, what does your product and service do?	Ambient Systems provides an AI-powered solution for managerial accounting, revolutionizing cost accounting, budgeting, and variance analysis.

What is your vision? What will your startup make possible that is not possible now?

To use technology to bridge the gap between financial performance and climate change.

What big problem are you solving?

We help businesses reduce their and improve their financial performance.

Define the profile of your most valuable customers.

Finance teams in the commercial real estate investment trusts (REITs) and niche properties like vertical farming. But we may pivot to tech companies.

Why are you the right team to solve this problem?

We have the expertise and experience in both the sustainability and financial analysis spaces.

What relevant experience do you have that connects you specifically to the vision?

Ivan has a master's degree in computer science and has experience at Deloitte Canada where he supported clients with risk management and technology.

What problems stand in the way of your vision?

Competition and generating revenue.

Do you have any non-founders on your board of directors?	No

Please list the non-founders on your board of directors, and why they are on your board.

None

Why are you applying for Accelerating Asia?

Accelerating Asia values entrepreneurship as a catalyst for positive change and supported us previously at various events.

Have you applied for Accelerating Asia before?	No
How did you learn about Accelerating Asia?	✓ Accelerating Asia Event

If you were referred by a person or organization, please indicate below the name of said person or organization.	Participated in Accelerating Asia's Pitch Event.
If you learned about Accelerating Asia through an Event or Webinar, please indicate below which event.	Enterprise Singapore Deal Fridays Event.
How long have you known about Accelerating Asia?	6-12 months
Why would you like to be part of the Accelerating Asia community and alumni?	We learned a lot preparing for the Deal Friday's pitch event by working with the venture partner and other founders.

What challenges do you have in your business that which we can help you?

We need to develop a pricing strategy for Southeast Asia. There's confusion among pricing options in the market (e.g., one-off fees vs subscription).

What is a skill that you want to have OR a skill you are trying to improve?

Growing revenues and product.

If you did not apply to Accelerating Asia, what else would you do to grow in the same timeframe? (3 months)

We would pivot to a services model in North America and invest the surplus into product development. We may move to Japan in the future but not SEA.

Have you received any grant funding?	No
If yes, how much funding in grants have you received? (USD only)	US$0.00
Does your startup have any IP ( )?	Yes
Is anyone on your founding team a Singapore citizen or a Singpore permanent resident?	No
