Improving Financial Performance is Often a Complex Challenge

Financial Planning	• Forecasting requires incorporating industry benchmarks • Range of potential future scenarios due to uncertainty and risk
Reporting	• New compliance requirements for decarbonization • Traditional accounting is time-consuming, error prone, and difficult to track
Insights	• Require multiple data sources • Hard to group large volumes of data

Plans

- Built customer base for interviews and potential leads (interviewed 26 individuals so far and 13 people from finance industry, but they may not be right customers or customers at this time) – have another 100+ contacts in the finance industry that we have not interviewed yet
- We know there is a pain point with current solutions based on these conversations and our own market research but we need to do more validation: prospecting, messaging, marketing materials, message, and outreach
- It might take a long time to see commercial results (e.g., 8 months)
- Try out the alternatives and collect notes
- Prepare materials for customers: brochure or flyer, white paper, a case study, video, and a presentation
