# Market Discovery Programme Application

Attention tech ventures eyeing growth in Hong Kong and Mainland China!

**Join HKSTP's Market Discovery Program**, your exclusive route to Hong Kong and Mainland China as your next phase of growth.

Now, you have the opportunity to leverage the unique advantages of Hong Kong's strategic location and **HKSTP's (Hong Kong Science Technology Park)** thriving innovation ecosystem. This will be your gateway to the Chinese market, granting you a distinct competitive edge within the region. Guided by a team of industry experts and growth specialists, you'll receive invaluable support for expanding into new markets.

Not only that, but this initiative is also a remarkable avenue to establish meaningful connections with potential customers and partners.

**Event: Nov 6-7, 2023.**
- Apply now via this form! We kindly ask you to fill in the form within the next 4 business days.
- Selected startups will receive exclusive invites.

1

Please list all members of your company's founding team and their positions: *

Ivan Damnjanovic, CEO and Founder

## About the Company

Please describe your company in one sentence *

Ambient Systems provides a cutting-edge financial management platform that goes beyond traditional solutions by seamlessly offering services that encompass robust financial planning, reporting, and analysis, providing actionable insights to drive financial performance.

What is your core value proposition? *

Ambient Systems empowers finance teams with AI-powered Financial Planning and Management Software (FP&M SW). Seamlessly integrating IoT data, our solution optimizes financial operations, automates tasks, and enables precise decision-making. Overcome competing priorities with AI-driven prioritization, receive real-time operational insights, and ensure impeccable data accuracy and compliance. Elevate financial strategy with our comprehensive, efficient, and data-driven FP&M SW.

What achievements from the past 2 years can you share with us?

We've secured a first runner-up spot in Google in Singapore, received a patent in partnership with Asia's number 1 ranked university (National University of Singapore), and secured R&D partnership with a Fortune 500 Japanese technology company.

- ( ) $10 million - $50 million
- ( ) $10 million - $100 million
- ( ) $1 billion and above

## Expansion to China

What is your expected plan of expansion to Hong Kong and the Greater China regions (in the next 3 years)? *

We plan to test out the market demand first before committing team and resources for Hong Kong and China.

Any plans to set up an entity in Hong Kong or China in the coming 12 months? How can HKSTP be of value to you? *

We need to validate market demand first.
