
AMBIENT
SYSTEMS
Unleash the power of data science for new and
existing buildings and construction

Digital & AI Products are Fragmented

Limited space for onsite installation of new technologies in existing buildings

Lack of solutions that are energy efficient or have low carbon footprint

Solutions available are not always cost effective and proven technologies

Managing complex building interactions with IAQ is an emerging environmental concern validated by Industry & Academia, and our customer discovery

The financial toll

Cost of Capital increases

More time collecting data

Risk to business continuity & disruption

New pressure to decarbonize construction & existing buildings

Global construction accounts for 38% of global CO2 emissions

$9.2 trillion in annual average spending is needed to transition to net zero

81% of real estate executives consider technology modernisation very important or extremely important

Visionary Product

Streamlined support of critical business decisions based on data

Before and After (Current Buildings)

Status Quo

Big or No Data Teams:
$500k+ per year or no capabilities

Fragmented Data:
100+ hours per month collecting data

Annual Energy Audits:
$10k+ per audit with gaps in between

With Ambient

Dedicated Data Engineer:
<$10k per month

Automated Data Engineering Pipeline:
< 5 hrs collecting data

Patented ML Models:
Continuously monitored by the dedicated remote team with deep tech capabilities

We deliver results in less than a week

Phase 1

Free Audit
(< 1 week)

- Upload BIM file
- Upload utility bill
- Provide BMS API connection

- Get a free carbon footprint calculation (embodied and operational)
- Get a free list of top 10 recommendations

Phase 2

Pro version Trial Period
(2-3 months)

- Get access to energy audit AI + 7 other models

Phase 3

Full Implementation
(24-month contract)

- Connect data feeds APIs
- Access variety of Ambient's data feeds
- Get recommendations for digital transformation roadmap

Tailored models for all stages of the construction process

Backed by Leaders
