Reimagining the future of smart cities

Retail facilities require complex coordination of advertising, leasing, sustainability, and other objectives to ensure **high-quality service** and **profitability**

Too Many Systems = Labor Intensive

Advertising Displays

Lighting

Refrigeration

Foot Traffic

Air Conditioning

Payments

Facility Management faces New Challenges

Edge Devices

Automation

User Behavior

Energy wastage

High operational cost

Ongoing

Savings Potential Through Increased Human Productivity

Utilities
$3

Rent
$30

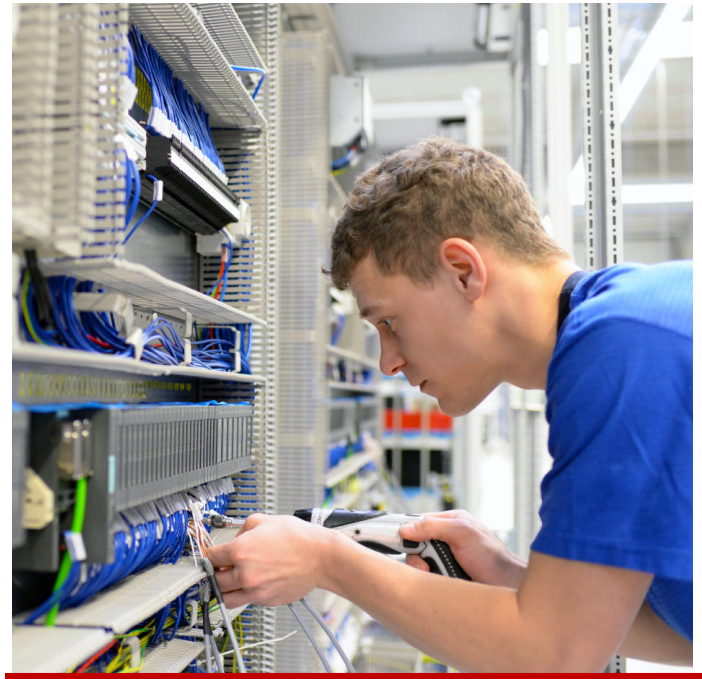

Human Capital
$300

Rent & **Labour**
account for
75%
of retail Opex
(DBS Bank, 2019)

Current Smart FM Solutions are Limited

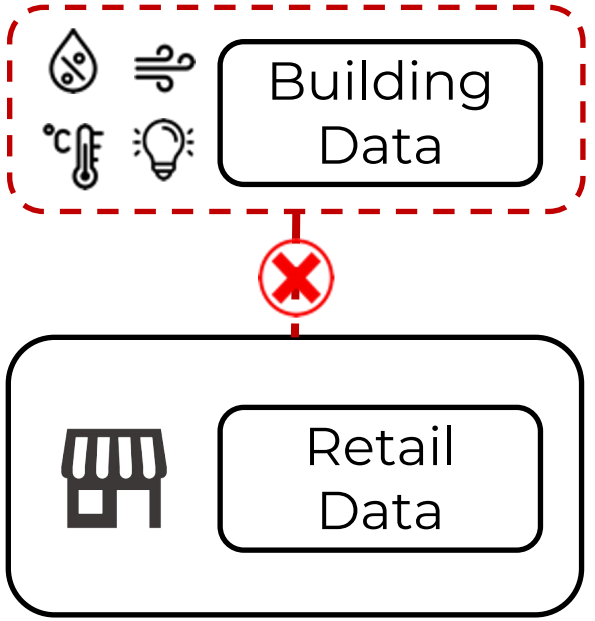

Energy optimization overlooks service quality

CMMS platforms missing tailored analytics

BMS & BIM solutions too generic

Solution: AI Platform for Retail Facilities

Sense

Optimize

Control

1. Connected

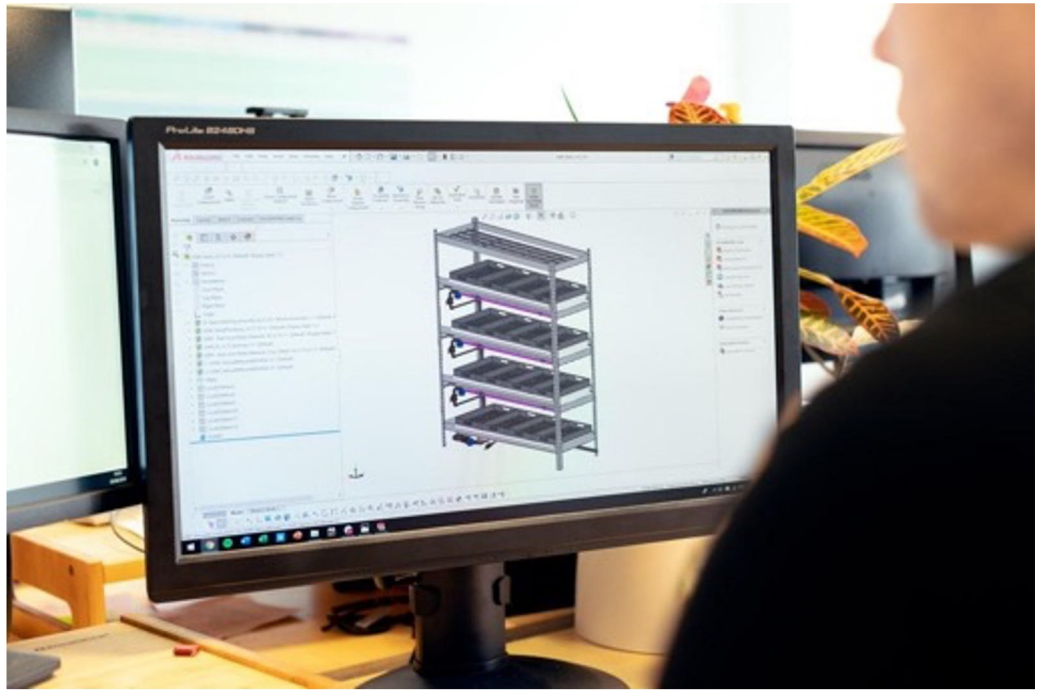

Integrated with essential equipment and control systems

Seamless Building Integration

Connect IoT systems to existing building management system – or have Ambient implement them based on your requirements. Enjoy full connectivity across the facility and perform real-time equipment adjustments based on client needs.

2. Centralized

Important data in one easy-to-access place

Monitoring In Real-Time

Access real-time data through online dashboards and securely archive all critical operational information. Start measuring most important parameters like space utilization and foot traffic.

3. Automated

Leverage combined power of AI and Human Experts

Grow With Data Insights

Leverage latest machine learning models to improve the service quality and reduce operational costs.
Access curated insights by our network of advisors who can help fine tune your retail operations, enabling better service and more accurate costing predictions.

Computer Method for Management of Retail Facilities

Data Sources		
Business	Property Management Data	Asset Management
	Tenant Data	Client Occupant
	Workforce HR Data	GM / CFO
Engineering	BMS (AC and electrical)	Facility Management
	CMMS (maintenance and repairs)	Facility Management
	BIM (structural, mechanical, health & safety)	Facility Management
Macroeconomic	Local economic growth	External
	Carbon Taxes	External
	Area desirability / activity	External

↑ 15-25%

enhanced property valuation
(by attracting & supporting sophisticated tenants)

↓ 30%

lower operating expense ratio
(through operational efficiency insights)

+24%

energy savings,
man-hour savings,
enhanced property performance

Break-even in

6 to 12 months

Ambient supports a broad range of retail spaces
