Summary

Nature of Business *

Nature of Business:

Financial Technology (FinTech): Ambient Systems develops software solutions for financial management, specifically targeting industries with high growth potential and sustainability demands.

Product / Service to be Developed *

Product / Service to be Developed:

Cloud-based Financial Management Software: This software leverages AI, IoT, and data analytics to provide comprehensive financial planning, forecasting, and analysis tools. It focuses on:
Cross-border compatibility: Addressing challenges with data compatibility in geographically diverse markets like Hong Kong and China.
Sector-specific solutions: Tailoring functionalities for industries like commercial real estate, transportation, and construction.
Sustainability integration: Allowing seamless integration of ESG criteria and sustainability metrics into financial reporting.

Innovativeness/Challenge *

Innovativeness/Challenge:

Addressing market gaps: Ambient Systems tackles limitations of existing ERP and FP&A software by offering an AI-powered platform integrated with IoT and sustainability features.
Cross-border and sector focus: Tailoring solutions for specific industries and geographically diverse markets is a unique and challenging value proposition.
Leveraging cutting-edge technologies: Integrating AI, IoT, and cloud computing into financial management is innovative but requires advanced technical expertise.

Business Viability *

Business Viability:

Strong market potential: Targeting high-growth industries with increasing demand for AI-powered financial solutions and sustainability integration.
Unique value proposition: Offering differentiated features compared to existing software could attract a niche market.
Potential partnerships: Collaboration with HKSTP provides access to resources and expertise for R&D and market expansion.
Challenges: Competition in the FinTech space is fierce, and successful implementation requires technical expertise and strong user adoption.

Part E - Milestone Assessment

Milestone Summary *

List the key status, achievements or deliverables in one liner as a summary of each milestone in terms of "Product Development", "Business Development" and "Corporate Development"

Milestones summarized in the table and attached business plan document.

Product Development Progress *

Describe the outcomes of the R&D works per each milestone in a measurable way. Qualitative and quantitative results should be specified. Input "NA" if no working plan in the specific milestone.
Please list out the key functions/features to be developed in each milestone .

Assessment Sc	0-3rd Month	4-9th Month	10-15th month	16-21st month	22-27th month	28-33rd month
Design Work	Complete architecture diagrams, product designs, and user journey.	Identify requirements for AI model architecture, IOT integration, and financial management feature set.	Identify requirements for a pilot implementation based on customer interviews.	Hardware design improvements consisting of multimodal sensing, miniaturization, sensor fusion, Low-Power Wide-Area Networks (LPWAN) adoption.	Hardware improvements for on-device AI implementation, alternative displays, and energy-efficient power supply.	Internationalization of the product to different languages and regions.
Prototype / Demo	Develop essential features.	Create standard connections between Ambient Systems and select ERP systems.	Create standard connections between Ambient Systems and IoT and telematics solutions.	Conduct field pilot study or studies with finance teams in construction, commercial real estate, and transportation companies in Hong Kong or GBA or SEA, demonstrating financial benefits of the comprehensive solution.	Full scale implementation with one or more pilot sites.	Expand functionality to new use cases in financial operations like audit and new industry verticals like banking, asset management, and insurance.
Launch	Identify additional usability and launch requirements for Hong Kong and GBA, aligning them with global markets.	Conduct tests of the prototype.	Conduct alpha testing with priority users.	Conduct beta testing with external users during on-field pilot.	Fix any integration issues identified during testing.	Provide ongoing support and maintenance.

Business Development Progress *

Activity - Number : The planned activities support your execution of the business model; such as the activities related to market survey, business networking, exhibition, marketing campaigns, partner / client visits etc.
Activity - Details : The description of activity shall be scenario basis, which can be tracked with proof later in the milestone assessment.

Topic	0-3rd month	4-9th month	10-15th month	16-21th month	22-27th month	28-33rd month
Activity - Number	5	10	11	11	17	16
Activity - Details	Secure customers for service and custom engagement offerings, complete Hong Kong market analysis, competitor mapping, and partnership discussions.	Strategic partnerships established, initial client engagements.	Client acquisition campaigns.	Intensive client acquisition, additional partnerships.	Optimize client relationships, explore new markets.	Global market entry, expanded partnerships.
Partners (Co Name & supporting document)	Current Partner Panasonic IP Japan to provide relevant hardware tech for transportation sector.	Partner 2 Current accounting providers who can use Ambient's technology.	Partner 3 Hong Kong regulators who can provide input on new technology.	Partner 4 Growth Partner who can help us reach more users more quickly.	Partner 5 Scalability partner who can help us tap into larger markets more quickly.	Partner 6 Capital partners who can help us attract more investment and funds for growth.
Clients - Number	5	10	11	11	17	16
Clients - Details (Please provide names)	Clients in construction, commercial real estate, or transportation industries in Hong Kong and GBA.	TBD	TBD	TBD	TBD	TBD

Sales Revenue (HKD) *

Core Product : The revenue generated from the R&D outcomes with the proposed business plan for this Programme.
Non-core Product : The revenue generated from the other R&D or business activities that is **NOT** from your proposed business plan for this Programme.

Declaration

I, on behalf of **Ambient Systems Limited**, its directors and its employees, have read and fully understood the terms and conditions elucidated in the Incubation Programme Guide of the Incubation Programme (including the mandatory admission criteria3, the rules on the content provided to HKSTP and the related indemnity provisions) and all notes and terms included in the Incubation Programme Guide for the Incubation Programme.

I here declare, on my own behalf and a behalf of the Applicant, its directors and its employees, that:
the information and content provided in this application form up to the day of submitting this application is true, accurate, complete, up-to-date and not misleading.

I understand that any incorrect information or content of false statement may result in the termination of the incubation license agreement, the loss of status as an incubatee membership and all of the related support and services provided by HKSTP. I am also aware that the Applicant (including its directors or officers) may be criminally implicated for an offence of obtaining pecuniary advantage by deception under the Theft Ordinance (Chapter 210 of the Laws of Hong Kong) or common law deception if the Applicant obtains any benefits, sponsorship and/or any other allowance monetary or otherwise provided by the HKSTP under the incubation licence agreement as a result of any wrongful or incorrect or inaccurate statement(s), material(s) or information and/or any misrepresentation which the Applicant deliberately or intentionally provided or made to the HKSTP in completing the Application Form or any other forms the Applicant made in favour of the HKSTP which to the knowledge of the Applicant (including its directors or officers) is wrong, incorrect or inaccurate.

I understand that the information and content provided in this application will be vetted by HKSTP staff and external assessors. HKSTP will not sign Non Disclosure Agreement or any document alike in any occasion.

I understand that the indemnity provision contained in the Incubation Programme Guide may mean that (amongst other things) the Applicant will have to repay any benefit that HKSTP has provided to it.

To the best of my knowledge the business of the Applicant and the proposed project is original and does not infringe any existing intellectual property right of other individuals or companies.

I understand that the Applicant must, at all times from the signing of the application form to the expiry of the incubation licence agreement (if granted by the HKSTP), meet and satisfy all of the conditions stipulated under the mandatory admission criteria and that any failure on the part of the Applicant to meet any of the said conditions during the aforesaid period may result in termination of the incubation licence agreement, loss of membership in the Incubation Programmes, loss of all of the related benefits, support and/or services provided by HKSTP, and compensation and/or indemnity payable to HKSTP represented by the benefits or allowance received by the Applicant and/or the costs and expenses incurred by the HKSTP.
I shall constantly update the information and content provided and shall inform the HKSTP manager of Admission immediately if there are any changes to the information or content that I have provided to HKSTP whether under this application form or otherwise.

Remarks

1) This application form has been translated into Chinese for reference only. In case of discrepancy, the English version shall prevail.

2) The information collected from you will be used for the purpose of processing your enquiry or services applications only. For details of HKSTP's please visit: https://www.hkstp.org/privacy-policy/

3) Mandatory Admission Criteria:

Please refer to Incubation Programme Guide which can be downloaded at this application portal. HKSTP has the sole and absolute right to interpret any terms or conditions in this Admission Criteria. Any disputes in relation to this Admission Criteria shall be determined by HKSTP at its sole and absolute discretion and HKSTP's determination shall be final and binding on the Applicant.

Note:

1. In case of successful application, the applicant needs to fulfill the admission criteria throughout the incubation period, and maintain at least 2 full-time staff members at the office at Hong Kong Science Park Technology Incubation Centre, where they should conduct the core R & D.

2. The applicants should have a full disclosure of shareholder's identity and holding (up to the top level) of the applying entity. The general guideline is that should there be corporate shareholders, they should not be mature companies in the same industry involving R & D of the same or similar products.
