AMBIENT SYSTEMS

Unlocking the Power of AI and IoT for Finance Teams

Presented by:

Prepared Exclusively for: General Use

Finance Teams Face Pressure to Digitize

Manual time-consuming processes prone to errors and re-work

Modern businesses generate overwhelming amounts of data – financial and operational

Executive teams juggle among multiple competing responsibilities & priorities

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

Challenges in Financial Management

Finance teams overwhelmed by manual tasks.

Lack of accurate real-time operational data.

Competing priorities without objective criteria.

Traditional financial operations are siloed.

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

Case Study

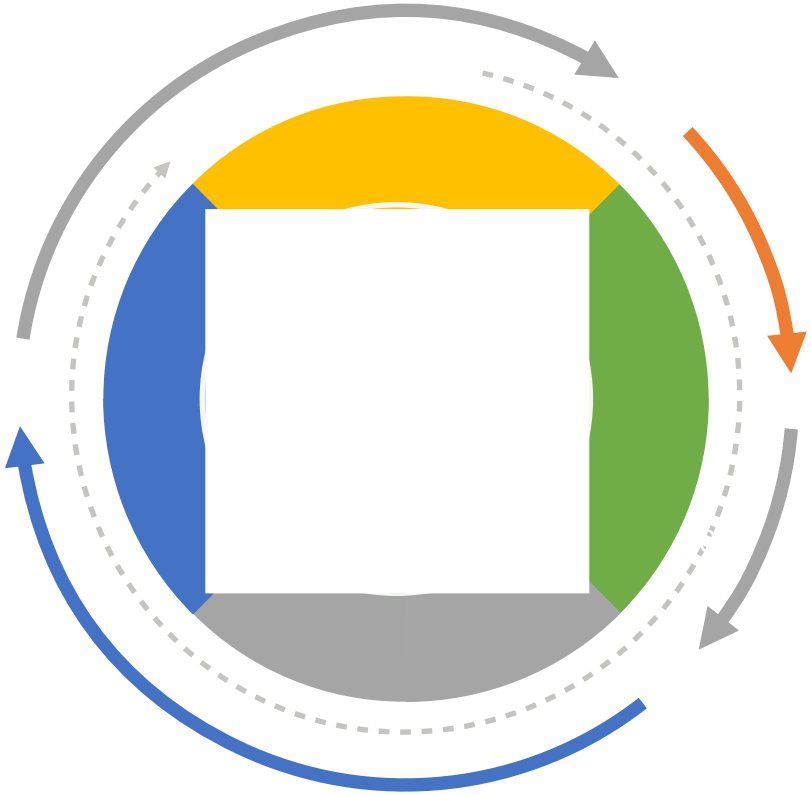

01 Objective Decision-making Criteria

- Improve quality and yield of crops
- Reduce energy and labour costs

25% to 75% more produce using the same amount of space

02 Access To Real-time Operational Data

- Environmental Parameters
- Energy consumption data
- Crop prices

03 Enhanced Financial Management Efficiency & Effectiveness

- Insights
- Planning

04 Financial Management Benefits

- Increased production
- Economical use of energy and CO2
- Reduced output timing risk

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

Ambient Systems' Value Proposition

1. Comprehensive Financial Planning & Management Software (FP&M).
2. Integration of IoT and Data Collection.
3. Addresses Multiple Financial Challenges with Optimized AI Algorithms.

Adaptive. Accurate. Affordable.

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

Commercial Real Estate

- First Runner-up in Google Cloud Hackathon in Singapore (2022)
- 13 commercial real estate developers with AUM over $1B in the Pipeline

Google Cloud

- Proof of Concept (POC) Pilot in Singapore
- Patent License
- 11 Prospects in the Pipeline

Vertical Farming

Traction

01

Fundraising

Raised over $150k from National University of Singapore and Private Investors.

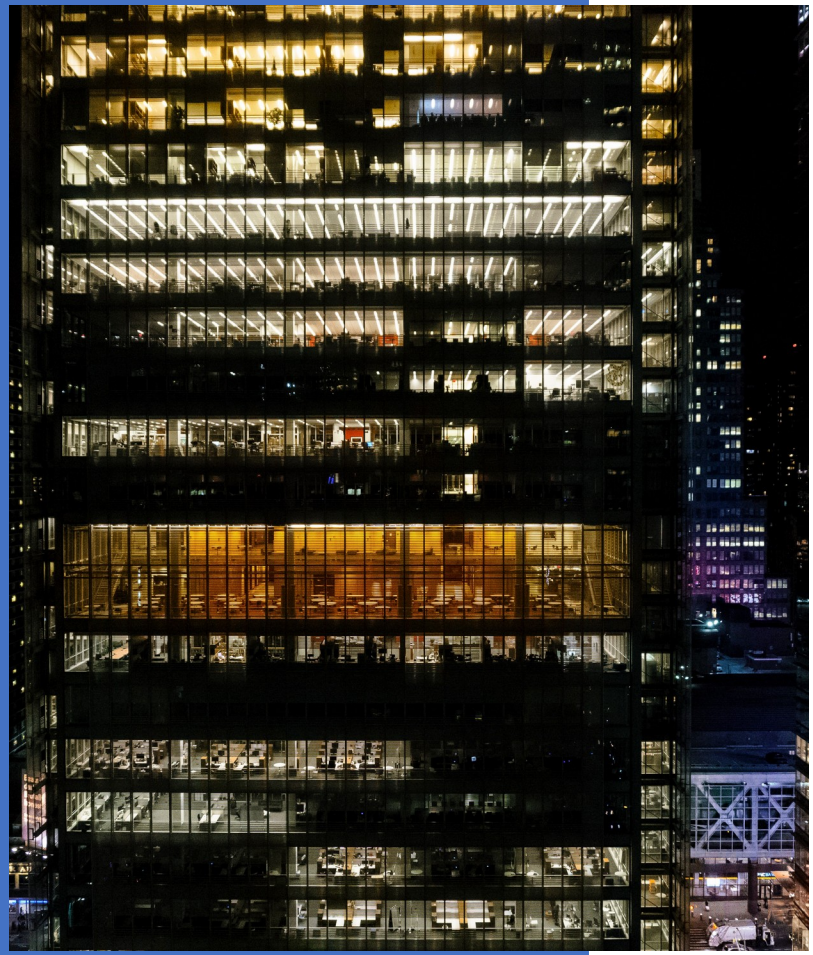

02

Partnerships & Collaboration

Collaborating with Singapore public sector, academia, and winner of Panasonic Deep Tech Innovation Challenge in 2023.

IPI SINGAPORE

SINGAPORE MANAGEMENT UNIVERSITY

Solution

Leverage Cutting-Edge AI, IoT, and Reporting Capabilities

Step 1 – Combine Datasets

Step 2 – Automate Workflow

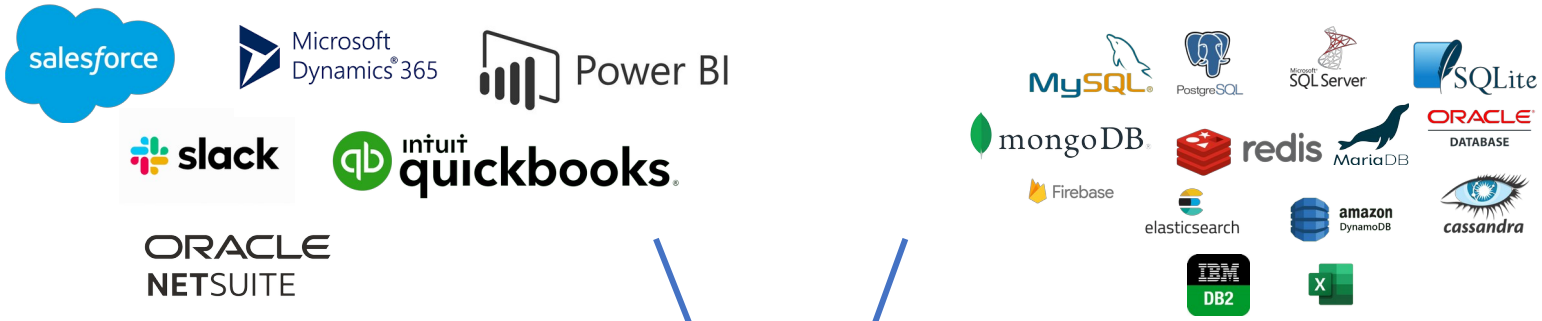

Step 3 – Add New Data

Step 4 – Leverage ML and AI

Step 5 – Output

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

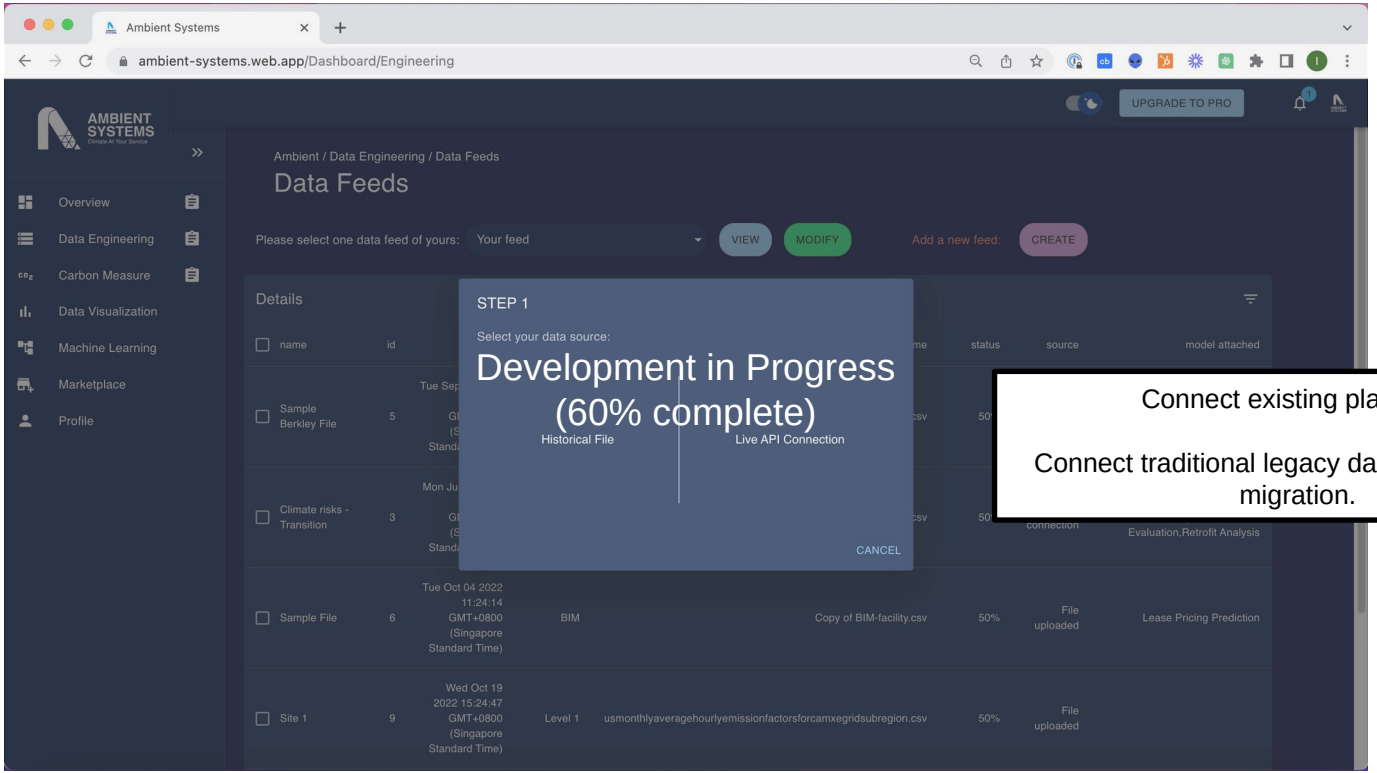

Leverage a diversified dataset

enables real-time data to financial planning process

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

User Journey: Feature 1 – Combine Datasets

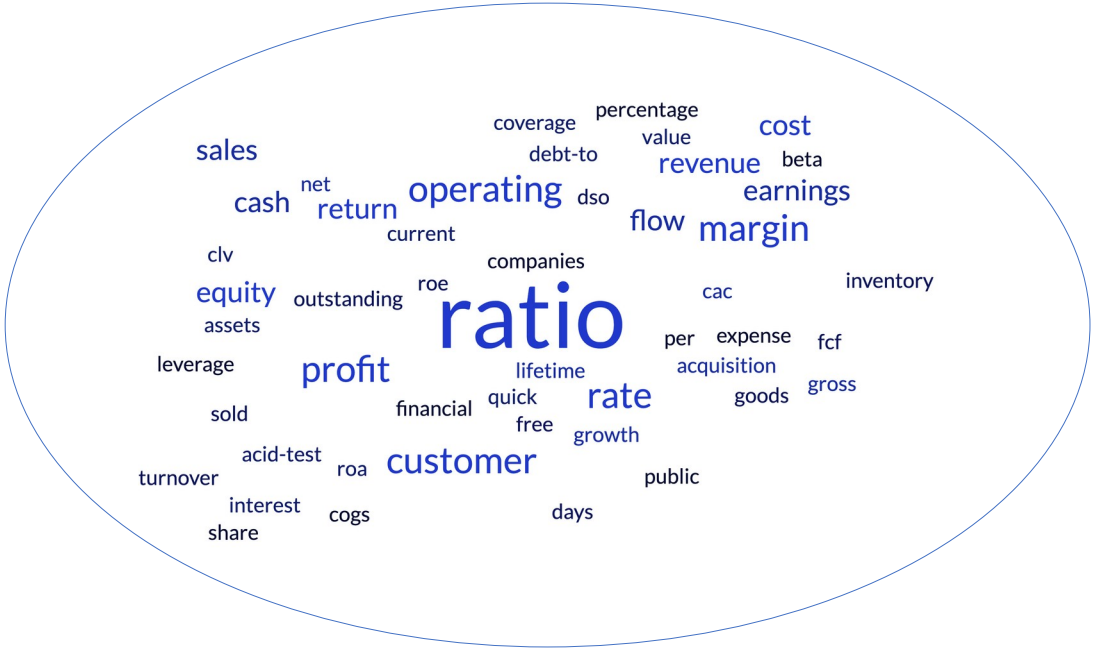

Connect existing platforms

Connect traditional legacy databases without migration.

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

You can automatically calculate financial metrics

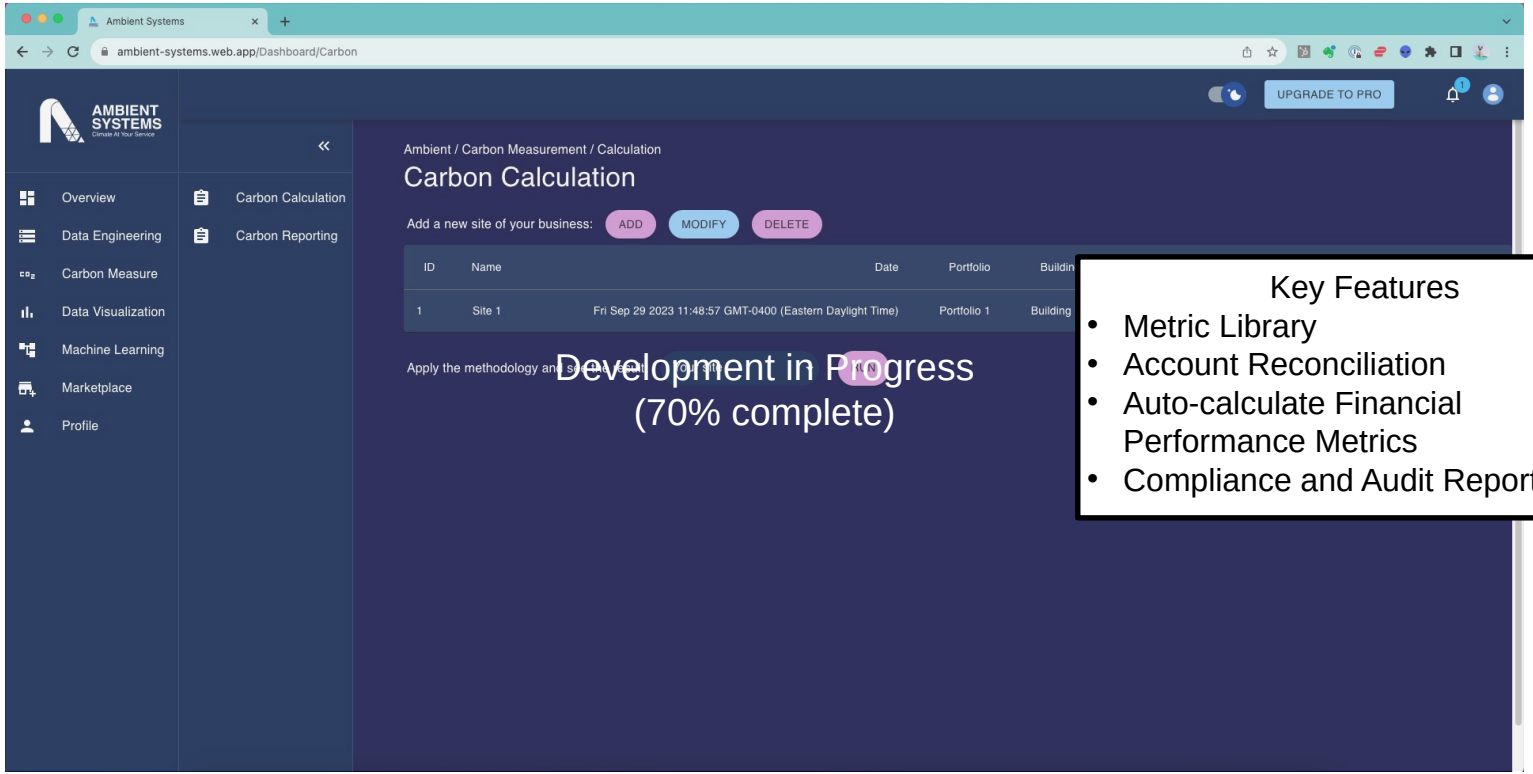

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

You can also auto-calculate industry-specific metrics in commercial real estate

Net Operating Income (NOI) = Expenses
Capitalization Rate ( ) = NOI / Property Value
Cash-on-Cash Return = Annual Cash Flow / Initial Cash Investment
Debt Service Coverage Ratio (DSCR) = NOI / Annual Debt Service
Gross Rent Multiplier (GRM) = Property Value / Gross Rental Income
Price per Square Foot = Property Value / Total Square Footage
Internal Rate of Return (IRR)
Vacancy Rate = (Total Vacant Space / Total Rentable Space) x 100
Lease Terms and Lease Rate Metrics
Operating Expense Ratio = Operating Expenses / Effective Gross Income
Tenant Retention Rate = (Number of Renewals / Total Number of Tenants) x 100
Absorption Rate = (Net Increase in Leased Space / Total Available Space) x 100

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

User Journey: Feature 2 – Automate Workflow

Key Features

- Metric Library
- Account Reconciliation
- Auto-calculate Financial Performance Metrics
- Compliance and Audit Reports

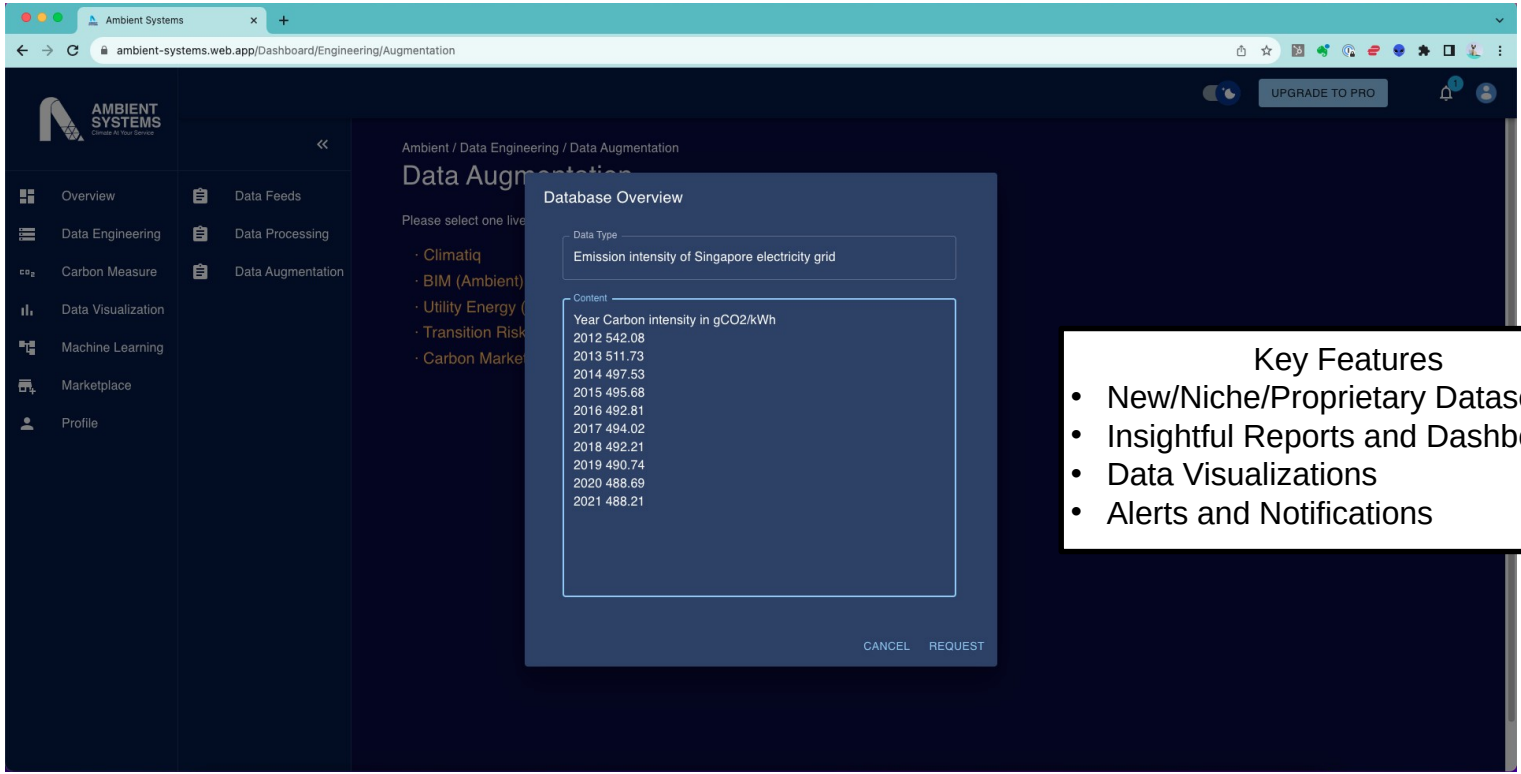

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

Leverage New Datasets

Financial Market Data: • Stock market data, including indices like the S&P 500. • Currency exchange rates, if applicable to international operations. • Interest rates and bond yields for financial planning.	**Regulatory Data:** • Data related to industry-specific regulations and compliance requirements. • Updates on regulatory changes that may impact financial planning.
Market Data: • Market demand and trends data, including industry-specific indices. • Competitor data, such as pricing, market share, and product offerings. • Economic indicators, like GDP growth rates, inflation, and interest rates.	**Operational Data:** • Data related to utilities, energy grid intensity, emissions, and others. • Supply chain data, including supplier emissions.

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

User Journey: Feature 3 – Add New Data

Key Features

- New/Niche/Proprietary Datasets
- Insightful Reports and Dashboards
- Data Visualizations
- Alerts and Notifications

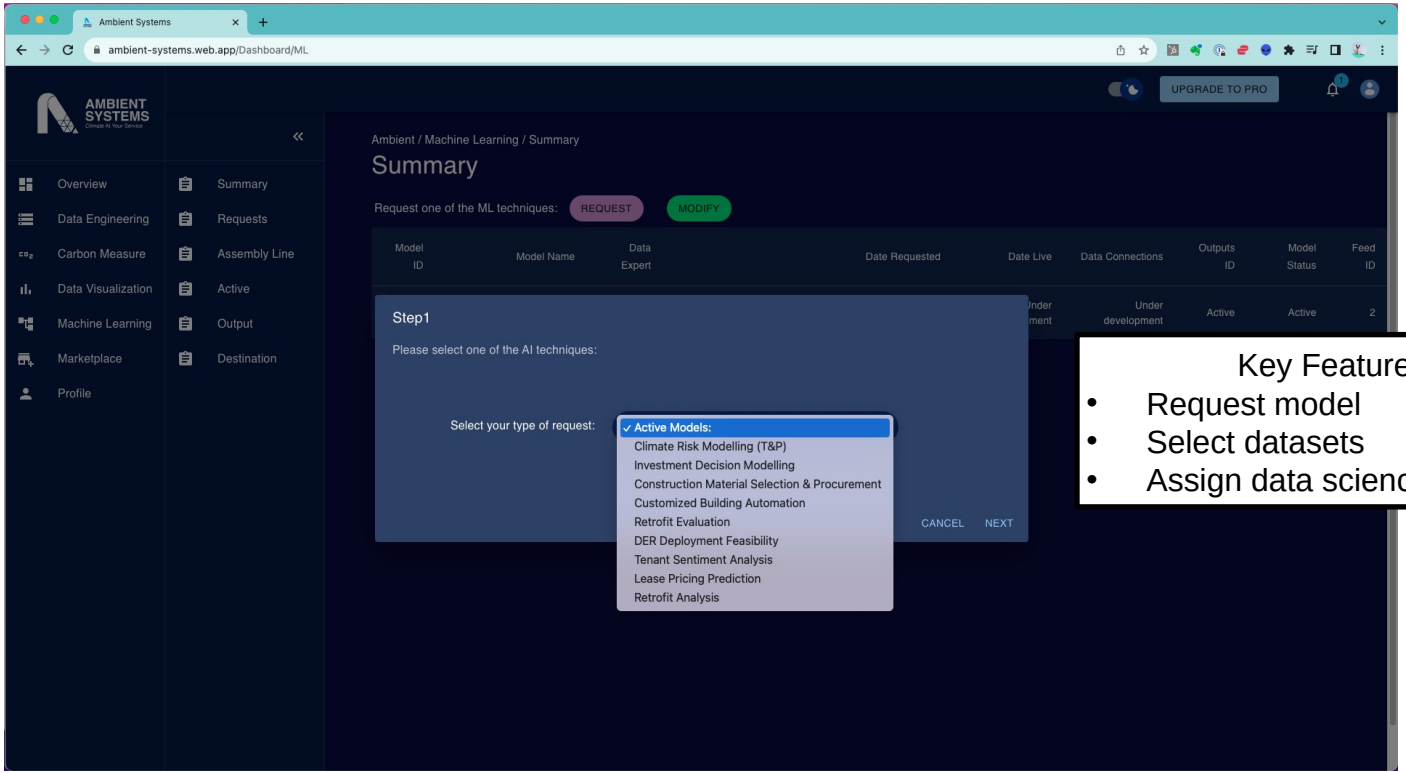

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

Patent-Pending Machine Learning Models for Your Industry

Stakeholders	AI Use Case
REITs	Predictive Property Valuation Market Research and Investment Strategy Financial Reporting Automation
Property Developers	Space Utilization and Planning Sustainability and Energy Efficiency Market Research and Demand Forecasting
Facility Managers	Predictive Maintenance Energy Management Security and Surveillance Tenant Experience Enhancement
Sustainability Teams	Carbon Reporting Disclosure Energy Efficiency and Sustainability Solutions Environmental Impact Analysis
Leasing Agents	Lease Analysis and Optimization Customer Support Chatbots Virtual Property Tours

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

User Journey: Feature 4 – Leverage ML and AI

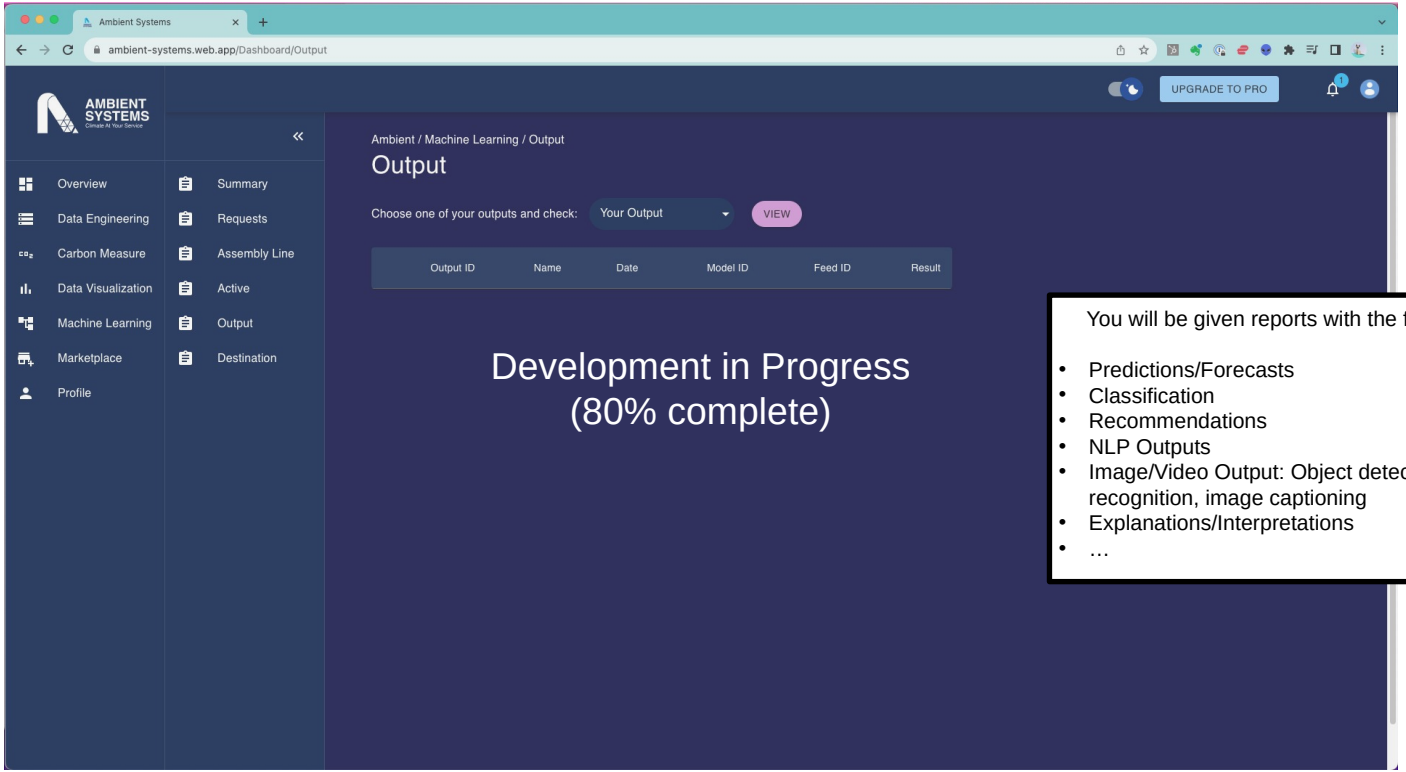

Key Features

- Request model
- Select datasets
- Assign data science expert

Available for Distribution. Copyright Ambient Systems Pte. Ltd.

User Journey: Step 5 – Output

You will be given reports with the following outputs:

- Predictions/Forecasts
- Classification
- Recommendations
- NLP Outputs
- Image/Video Output: Object detection, facial recognition, image captioning
- Explanations/Interpretations
- …

Available for Distribution. Copyright Ambient Systems Pte. Ltd.
