Mentoring for Startups #4 application form

Welcome to the registration form for this new session of Mentoring for Startups!

Before continuing with the form, here's a quick reminder of the mentoring rules to increase your chances of being selected.

==> The challenge

► Think about the challenge you want to work on to develop your activity **for the next 4 – 6 months.**

► The specific challenge you want to address should be a part **of a long-term project**, its solution will help your business grow.

► The challenge **must be related to the area of expertise** of the mentor(s) you will choose to help you.

► For this new session, we are allowing startups to **submit a 2nd challenge**. This is not mandatory, but it may help you if the mentors you have chosen are in high demand.

► This 2nd challenge must be completely different from the 1st one

==> The mentors

► Depending on the challenge, several mentors can meet your needs.
Don't forget that you can name up to 3 mentors per challenge who you think could help you.

GOOD LUCK!
